

BRITISH VESSEL  
FLASHES S. O. S.Steamer Alcazar in Peril Off  
Cape Hatteras.

NO ASSISTANCE AVAILABLE

All Revenue Cutters in That Vicinity  
Are Engaged in Aiding Other Ships  
in Distress—Last Call Indicates Ves-  
sel Is in a Serious Position—Had  
Just Been Released From North  
Carolina Coast.

Norfolk, Va., Jan. 10.—The British  
steamer Alcazar, recently ashore off  
the North Carolina coast and which  
started for Philadelphia, is again in  
distress. She is three miles off Cape  
Hatteras at anchor and leaking badly  
and has twice sent wireless appeals  
for assistance. No revenue cutters  
are available to send to her assist-  
ance, all of them being engaged in  
aiding other vessels in distress.

When the wireless appeals were re-  
ceived the Alcazar apparently was in  
a serious position. When he learned  
of the vessel's plight Barton Myers,  
British vice consul here, sent a mes-  
sage to the cutter Seminole asking its  
renewed assistance.

Every effort is being made to reach  
the distressed vessel, which was re-  
leased from the shoals off Cape Hat-  
teras by the Seminole and which pro-  
ceeded on her way north apparently  
undamaged.

## PERISH IN BURNING HOME

Woman and Her Invalid Mother Lose  
Their Lives.

Pine River, Minn., Jan. 10.—Miss K.  
Evangeline Barentzen, aged fifty-six,  
and her invalid mother, Mrs. Christine  
M. Barentzen, aged eighty-three, lost  
their lives in a fire which destroyed  
the home of James N. Hoffman in  
Bungo, a town west of here. The  
house with its contents was destroyed.

Mr. Hoffman left in the early morn-  
ing and when he returned late in the  
day found the house burned and fallen  
in and the women missing. Coroner  
Kiskella of Cass Lake was summoned  
and visited the scene, but found only  
fragments of bones and a small piece  
of human flesh in the wreckage in the  
cellar.

## WHEELING AT FLOOD MERCY

Railroad Traffic Stopped and Fac-  
tories Forced to Suspend.

Wheeling, W. Va., Jan. 10.—The  
Ohio river reached a stage slightly  
under 44 feet and this city is in the  
midst of its most disastrous flood,  
with the exception of the visitations  
of 1884 and 1907.

Railroads, trolley lines and steam-  
boats are all out of commission and  
the city is practically isolated.

In some sections of the city the nat-  
ural gas supply is cut off, which  
caused much suffering. A majority of  
the iron and steel mills have been  
forced to suspend and upwards of 10,-  
000 men are idle.

## TWO KILLED BY A TRAIN

Woodsman and Former Brakeman  
Meet Death.

Two Harbors, Minn., Jan. 10.—The  
frozen bodies of two men were found  
lying eight miles apart alongside the  
Duluth and Northern Minnesota rail-  
road tracks.

One was identified as Sam Urban,  
woodsman, aged thirty-two. The other  
was that of Ed Gallagher, thirty-two  
years old, single, formerly a brakeman  
on the Duluth and Northern Minne-  
sota railroad.

Marks on the bodies showed the  
men had been struck by a train.

## JOHNSON AGAIN IN COURT

Charged With Smuggling Diamond  
Necklace Into Country.

Chicago, Jan. 10.—Jack Johnson, Ne-  
gro pugilist, appeared before Federal  
Judge Carpenter ready for trial on a  
charge of smuggling a diamond neck-  
lace valued at \$6,000 into this country  
from England two years ago.

The ornament was presented to his  
former white wife, who committed  
suicide in Chicago several months  
ago. Later the necklace was confiscat-  
ed by the government.

Judge Carpenter continued the trial  
indefinitely and said he desired to  
dispose of the indictments charging  
the negro with violation of the Mann  
white slave act before taking up the  
smuggling case.

## SHIP SINKS; EIGHT DROWN

Captain and Crew of Schooner Fu-  
ture Lost Off Cape Hatteras.

Tampa, Fla., Jan. 10.—Captain Lar-  
kin and a crew of seven men lost  
their lives when the schooner Future  
foundered off Cape Hatteras, accord-  
ing to a telegram received here. The  
Future, laden with lumber, left here  
Dec. 26.

## CARTER HARRISON.

Mayor Declares Chicago Is  
Dumping Place for Criminals.

## CRIME WAVE LAID TO COURTS

Mayor Says Chicago Is Dumping  
Ground for Ex-Convicts.

Chicago, Jan. 10.—Chicago is the  
"dumping ground" for paroled con-  
victs; declared Mayor Harrison in a  
vigorous statement in which he de-  
nounced the leniency of the courts as  
responsible for the present crime  
wave.

Too much sentiment in dealing with  
criminals, he charged, is responsible  
for the epidemic of highway robberies  
and holdups. Leniency to persons  
caught with revolvers is another grave  
mistake, according to the mayor.

"In a statement given me," the  
mayor said, "it was shown that this  
city in December was made the dump-  
ing ground for sixty-seven paroled  
convicts from the Illinois peniten-  
tiary. Officially I protest against  
this."

TEN KILLED WHEN  
BOILERS BLOW UPSixteen Others Injured in Steam-  
ship Explosion.

Mobile, Ala., Jan. 10.—Ten persons  
were killed and sixteen were seri-  
ously injured when the river steam-  
er James T. Staples was wrecked by  
an explosion of its boilers near Bladen  
Springs, Ala. Thomas Bartee, cap-  
tain of the steamer, is among the  
known dead.

The injured were scalded, burned or  
struck by flying wreckage. The  
steamer sank within a few minutes.

## DESPERATE RIOT IN GOTHAM

Garment Workers Attack Police to  
Reach Lone Strikebreaker.

New York, Jan. 10.—The appear-  
ance of a solitary strikebreaker in  
front of a downtown clothing factory  
was the signal for one of the most  
desperate riots the police have had to  
contend with since the garment work-  
ers began their strike. Strikers at-  
tacked the man. Policemen went to  
his aid and in a few minutes more  
than 1,000 men and women were fight-  
ing to tear the strikebreaker from his  
protector.

A dozen more policemen rushed to  
the spot and began to make arrests,  
but most of their prisoners were  
wrenched from them almost as soon  
as they were taken.

The police used clubs and left a  
trail of broken heads.

## HUNDREDS OF HOMES FLOODED

But Water Now Is Receding at Pitts-  
burg.

Pittsburg, Jan. 10.—The crest of  
the river flood was reached here with  
a stage of 31.3 feet, eleven feet over  
the danger mark. The water is re-  
ceding. A large area, including a  
number of streets in the business dis-  
trict, suffered inundation and the loss  
is heavy.

Hundreds of homes in the lowlands  
are flooded and scores of manufactur-  
ing plants are idle, affecting over 5,000  
workmen.

## EPISCOPALIANS FOR UNITY

England Appoints Twenty Delegates  
for World Conference.

New York, Jan. 10.—Rev. Dr. Wil-  
liam T. Manning, rector of Trinity  
church in this city, received word  
from the archbishops of Canterbury  
and York announcing the appointment  
of a committee of twenty to represent  
the Church of England in the move-  
ment for a world conference on  
church unity.

The appointment of the Church of  
England committee is regarded as an  
important step in the world confer-  
ence movement which was first pro-  
posed by Dr. Manning at the Balti-  
more Protestant Episcopal conference  
about two years ago. Already about  
twenty demonstrations throughout the  
world have signified their intention to  
join in the conference.

CHANGE UNLIKELY  
IN INAUGURATIONPeople Who Go to Washington  
Want Regular Ceremony.

WILL GET WHAT THEY WANT

Senator Bailey Had Big Audience  
When He Made His Recent Speech,  
as He Had Announced His Intention  
In Advance—Fur Seal Question to  
Be Lasting as the Seals.

By ARTHUR W. DUNN.

Washington, Jan. 10.—[Special.]—  
"Give 'em what they have been get-  
ting," is what one man remarked con-  
cerning the inauguration of the presi-  
dent. Any attempt to do something  
different meets with strong opposi-  
tion. The inauguration ceremonies  
cannot be changed very much.

The people expect to see the show-  
the trip of the president and president  
elect to the capitol, the ceremony in  
the senate, the swearing in of the presi-  
dent on the east portico, his inaugural  
address, the parade of three hours or  
more down Pennsylvania avenue and  
past the White House, the inaugural  
ball in the evening. All these must  
take place, rain or shine or snow or  
slush, and those who pay for the show  
are then satisfied.

The suggestion that any change be  
made, that Governor Wilson walk to  
the capitol instead of riding or that  
any of the details be modified, meets  
with objection, and it appears that the  
inauguration is a fixed event, with fixed  
ceremonials.

## "Give 'Em What They Want"

So the "give 'em what they want"  
suggestion will be the program. That  
the people do want the same thing  
every time is shown in the crowds  
which always attend the opening of  
a session of congress. The opening  
never varies, but the big crowds go to  
the capitol every year just the same.

And the same is true of the White  
House receptions. They are just alike  
each year, yet the same people are  
there if they live, and they see the  
same sights.

## Patent Laws Stand.

When the supreme court rendered  
the decision which gave owners of pa-  
tent control over the sales of the prod-  
ucts of the machines there was at once  
a demand that the patent laws should  
be modified. Bills for that purpose  
have been rushed forward with consid-  
erable speed, but more mature judg-  
ment seems to have halted congress to  
some extent. While the laws may be  
changed, there is not going to be any-  
thing radical, for there is a strong sen-  
timent that men should have all possi-  
ble benefits from their inventions. There  
will be no patent law amendments at  
this session of congress.

## It Pays to Advertise.

Senator Bailey gave notice more than  
two weeks in advance of his intention  
to speak in the senate. All the news-  
papers took to speculating upon what  
he might say. As a result he had a  
crowded senate, the house adjourned  
for want of a quorum because the  
members wanted to hear Bailey, the  
galleries were packed to suffocation,  
and even many diplomats were pres-  
ent. Bailey has often said that he  
did not like to announce his speeches,  
but in the recent case he was willing  
to have a good audience and took the  
best means of getting it.

## Our Fur Seals.

Ever since the fur of seals became  
very valuable we have had a fur seal  
question, and we will probably have  
one as long as we have Alaska unless  
we let them go as did the buffalo. It is  
a curious fact that for present gain cer-  
tain people would destroy everything.  
All the big game and the birds have  
to be protected or they would soon dis-  
appear. The desire to kill has as much  
as anything to do with the destruction  
of animal and bird life.

## Ex-Senators in Evidence.

Some ex-senators never go near the  
senate after their terms end. Aldrich,  
who was such a power when he was  
there, is rarely if ever seen on the  
floor. Hale has not been in the sen-  
ate in two years. Chandler of New  
Hampshire was there only a few  
times. Don Cameron, who used to say  
that about the only useful thing con-  
nected with the senate was that it  
gave a man the privilege of the floor  
ever after, has scarcely availed him-  
self of that privilege in fifteen years.  
But there are others who have fre-  
quently made their appearance on the  
floor. On a recent big occasion at least  
ten ex-senators were in evidence. They  
just went up to see how it seem-  
ed to listen to a great speech.

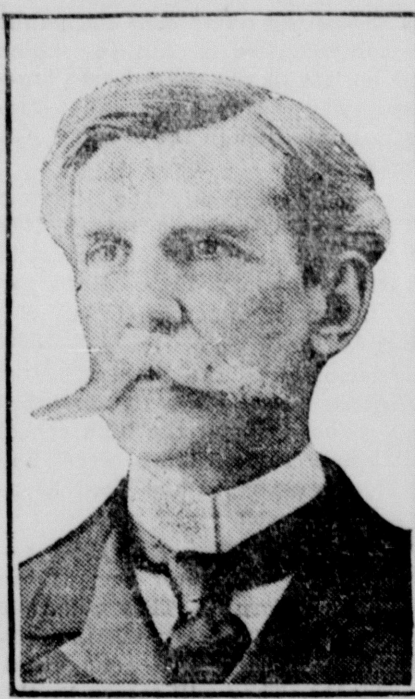

## Indian Bill Never Dies.

Once start an Indian bill providing  
for some sort of an appropriation from  
the treasury and it never dies. Sena-  
tor McCumber of North Dakota just  
before the holiday adjournment pro-  
posed this rule by introducing a bill to  
settle the claims of the Sisseton and Wah-  
peton and the Medwankanton bands of  
Sioux Indians. Ever since 1862, when  
it was declared these Indians were im-  
plicated in the great Sioux massacre,  
there has been pending a claim for the  
payment of the annuities which were  
due at that time suspended. The benefi-  
ciaries are nearly all dead, but their  
heirs survive, and what is more im-  
portant, the claim agents survive, and  
they will get most of any money that  
may be allowed.

## Wise Work.

All wise work is usually threefold in  
character. It is honest, useful and  
cheerful.—Kushlin.

## JUSTICE HOLMES.

Denies Rumor That He Will  
Retire From Supreme Bench.

## HOLMES WILL NOT RETIRE

Associate Justice Denies Rumor That  
He Will Quit Bench.

Washington, Jan. 10.—Emphatic de-  
nial that he considers retirement from  
the United States supreme court was  
made by Associate Justice Holmes.  
"There is nothing to it whatever," he  
said. "I have not considered the ques-  
tion in any manner. The report is  
without foundation." Justice Holmes  
reached the retirement age last  
month.

ROOSEVELT OPPOSES  
MERGING PARTIESBelieves Progressives Should  
Continue to Work Alone.

New York, Jan. 10.—Theodore Roose-  
velt replied to a proposal advanced  
by Frank A. Munsey to bring the Pro-  
gressive and the Republican parties  
together. He said:

"I am simply speaking as one of  
the men in the ranks of the Progres-  
sive party. Personally I strongly feel  
that we should no more enter into a  
combination with the Republican ma-  
chine than with the Democratic ma-  
chine."

"I firmly believe that all good Pro-  
gressives who may happen yet to ad-  
here to either the Republican party or  
the Democratic party will in the  
end see that the chance for honest  
government and for the practical  
achievement of social and industrial  
justice lies in the Progressive party  
and only in the Progressive party."

"We welcome all honest men who  
believe in our principles. If they  
come in with us they shall have ex-  
actly the share that any other people  
have of the party management. I  
hold that we are under the same obli-  
gation to former Democrats, like  
Judge Lindsey and Don Dickinson, as  
to any former Republicans."

"To my mind, the whole attitude of  
those at present responsible for the  
leadership and management of the  
Republican party shows that it would  
be folly to try to combine with them."

## RATHENAU MEDAL FOR EDISON

Awarded for Best Electrical Device  
for Safeguarding Life.

New York, Jan. 10.—The invention  
by Thomas A. Edison of a storage bat-  
tery device which reduces danger to  
life and health of workers employed  
in mines, tunnels, submarine boats  
and other places where explosive  
gases generate has won for Mr. Edi-  
son the honor of being the first re-  
cipient in this country of the Rathenau  
medal, according to announcement here.

This medal, once presented by the  
emperor of Germany to Dr. Emil Rath-  
enau, was loaned to the American  
Museum of Safety, which will award  
a replica each year to the inventor of  
the best device in the electrical in-  
dustry for safeguarding life. Mr. Edi-  
son will receive the medal Jan. 23.

## Yorkshire Textile Dyers Strike.

London, Jan. 10.—The textile trade  
in Yorkshire is in danger of coming  
to a standstill through a strike of  
dyers for higher wages. Six thousand  
have quit work in the Bradford dis-  
trict; 5,000 more have given notice  
that they will quit in a week. The  
employers are willing to grant the in-  
crease demanded, but they want to im-  
pose a system of piece work, to which  
the dyers are opposed.

## DULUTH COW IS CHAMPION

Winner of Red Poll Cattle Club But-  
ter Test for 1912.

Duluth, Jan. 10.—Pear, a cow in the  
regular herd at a local farm, is the  
winner of the Red Poll Cattle club  
butter test and has been declared the  
holder of the record for Red Poll cows  
in America for 1912. The cow was  
entered by the Jean Duluth farm and  
was scored by J. W. Martin, official  
inspector.

## OPINION HITS MIDDLEMAN

Consumer Can Purchase Lumber Di-  
rect From Wholesaler.

Washington, Jan. 10.—The govern-  
ment's victory at New York against  
the so called lumber trust is regarded  
by officials of the department of jus-  
tice as one of the most important ac-  
complishments under the Sherman  
anti-trust law, because it limits in  
large measure the power and privi-  
leges of the much discussed middle-  
man in commerce.

The decision is construed here as  
meaning that the consumer of lum-  
ber, untrammelled by the retailer, may  
purchase directly from the wholesaler  
or manufacturer and the latter may  
sell directly to the public without in-  
terference of a combination of re-  
tailers.

## WON'T GIVE UP ADRIANOPLE

Porte Will Recall Delegates Unless  
Allies Meet Terms.

Constantinople, Jan. 10.—The porte,  
according to official announcement,  
has sent a circular to the Turkish am-  
bassador abroad, intimating that un-  
less the allies accept Turkey's peace  
proposals by the end of the week the  
Ottoman delegates will be invited to  
return to Constantinople. The circular  
adds:

"Whatever happens the porte is de-  
termined to maintain its attitude with  
regard to Adrianople and the Aegean  
islands, in view of the fact that sacri-  
fices made in other directions have  
reached the extreme limit."

## MINING COMPANY BANKRUPT

Calumet and Montana, Owned Prin-  
cipally by Minnesota Men.

Butte, Mont., Jan. 10.—The Calumet  
and Montana Mining company was ad-  
judged bankrupt in the federal court  
at Helena on the petition of the fol-  
lowing creditors. Butte Machinery  
company, with a claim of \$600; Ana-  
conda Copper Mining company, \$744.82,  
and the Continental Oil company,  
\$482.99.

The Calumet and Montana is owned  
principally by Minnesota men and was  
being highly boomed only a short time  
ago by advertising in Eastern papers.  
The property consists of the King Sol-  
omon mine, located near Clancy.

## TAFT CREATES BIRD RESERVE

Signs Order Setting Aside Small Is-  
lands in Lake Michigan.

Washington, Jan. 10.—President  
Taft signed an executive order creat-  
ing the Gravel Island reservation in  
Wisconsin for the protection of native  
birds. The reservation embraces  
Gravel and Spider islands, two small  
unsurveyed islands in Lake Michigan,  
near the entrance to Green Bay. They  
have no agricultural value and are  
still part of the government public  
lands.

Gravel Island has apparently always  
been a favorite feeding place for gulls  
and Caspian tern and forms the basis  
of an interesting gull group in the  
Milwaukee public museum. Spider  
Island is a smaller home for gulls and  
herons.

## Ten Killed in Collision.

Liverpool, Jan. 10.—The Booth line  
steamer Ambrose, while proceeding in  
the Mersey, collided with a fishing  
smack and lighter, sinking them both.  
Ten men lost their lives.

First National Bank of New York  
a Gold Mine.

## DIRECTOR SUBMITS FIGURES

George F. Baker informs House Mon-  
ey Trust Committee That Institution  
Has Made Profits of More Than  
Eighty Million Dollars, With a Cap-  
italization of Half a Million, Since  
Its Organization in 1863.

Washington, Jan. 10.—Enormous  
profits by the First National bank  
of New York city were recounted by  
George F. Baker, chairman of the  
board of directors of the bank, a wit-  
ness before the house money trust  
committee. Mr. Baker produced re-  
cords showing that since its organiza-  
tion in 1863, with a capitalization of  
\$500,000, the bank has made profits  
amounting to more than \$80,000,000.  
In the four years since 1908, Mr.  
Baker said, the bank had paid divi-  
dends of 225 per cent, or more than  
twice the total capitalization, which  
is now \$10,000,000.

When the capital was increased to  
that amount in 1901 a special dividend  
of \$9,500,000 was declared, Mr. Baker  
said, to enable the stockholders to  
take up the additional investment. In  
1908, in order to provide \$10,000,000  
of capital for the organization of the  
First Securities company to take over  
the business "which the bank could  
not do under the law," Mr. Baker said,  
a special dividend of \$10,000,000 was  
declared. This was in addition to the  
regular yearly dividends.

Samuel Untermyer, counsel for the  
committee, from figures supplied by  
Mr. Baker, calculated that since Mr.  
Baker assumed the presidency of the  
First National bank in 1873 that in-  
stitution has paid dividends of 18,550  
per cent on its original capitalization.

## Opposes Making Public Assets.

Mr. Baker flatly opposed the sug-  
gestion made by Mr. Untermyer that  
national banks be required to make  
public their assets, in order that de-  
positors and stockholders might know  
the nature of securities held by the  
banks, the witness declaring that he  
saw no possible good that could come  
of such a provision.

That there is no impropriety in one  
man holding directorships in two or  
more potentially competitive banks,  
railroads or industrial corporations,  
was another stand taken by Mr. Ba-  
ker. Mr. Untermyer reviewed with  
him a long list of railroads in which  
he is a director, some of which the  
lawyer held were potentially compet-  
ing lines.

Mr. Baker declared that it was rat-  
her an advantage to hold such director-  
ships "because differences between the  
companies can thus be readjusted."

"Such a situation," he continued, "is  
often beneficial to all parties con-  
cerned."

The witness did not approve of the  
"voting trust" form of control of cor-  
porations by which the stockholders  
turn over their voting rights to vot-  
ing trustees, but said that he would  
not disapprove it if stockholders de-  
sired it.

Mr. Baker stated that his bank and  
J. P. Morgan & Co. had three directors  
in the National Bank of Commerce.

## RUSSIAN FLEET MOBILIZED

Powers Prepare to Coerce Turkey by  
Naval Demonstration.

London, Jan. 10.—The Russian  
Black sea fleet was mobilized in pre-  
paration for the naval demonstration  
projected by the European powers in  
the event of it being found necessary  
to appear to coerce Turkey.

If the demonstration should be car-  
ried out the Russian vessels will prob-  
ably appear in the Gulf of Iudala on  
the Black sea, seventy-five miles to  
the northeast of Adrianople, while  
those of the other European powers  
will gather in Besika bay, on the  
coast of Asia Minor, near the entrance  
to the Dardanelles.

Such a demonstration, it is believed,  
would make easier the Turkish gov-  
ernment's task of surrendering to the  
demands of the allies, as it could then  
plead coercion.

## TO DECIDE ARCANUM RATES

Federal Supreme Court Will Pass  
Upon Increased Charges.

Washington, Jan. 10.—The so called  
Green case, brought in the New York  
state courts to contest increased in-  
surance rates imposed by the Royal  
Arcanum, will be brought to the su-  
preme court of the United States upon  
writ of error, which has been granted  
by Associate Justice Hughes.

The Minneapolis Journal says:  
Thomas Van Lear headed a delega-  
tion of railway machinists which  
called late Friday on Governor A. O.  
Eberhart to ask him not to oppose an  
amendment to the anti-pass law to  
allow railway employees to hold pub-  
lic office without losing their rail-  
road passes. The delegation repre-  
sented district unions of the machin-  
ists. The case was presented to the  
governor, who did not indicate what  
his attitude will be. Mr. Van Lear  
explained that many railway em-  
ployees would like to hold minor of-  
fices where the salary is little or noth-  
ing, but cannot afford to do so be-  
cause they would lose their railway  
transportation.

M. D. Stoner tells a good story on  
Fred Olson, of Deerwood, his super-  
intendent. In order to make better  
time to points along the pole line of  
the Cuyuna Range Power company  
Olson uses a motorcycle and can  
spin from Deerwood to Crosby in a  
few minutes. The other morning  
Olson's corn cob pipe did not draw  
well, and mounting his machine, Ol-  
son placed the pipe in his pocket and  
tuned the motorcycle up to 30 miles  
an hour. By some method of a  
short circuit or spontaneous combus-  
tion the pipe revived and set fire to  
Olson's long sheepskin coat. Fanned  
by the wind the blazing coat tail  
streamed out like the tail of a com-  
et. Every passerby tried frantically  
to flag the burning Olson, but he  
grimly screwed up more speed and  
thought everybody crazy about the  
motorcycle. At last he reached a  
farmer who obstinately blocked the  
road while he waved his hands and  
yelled "Whoa" to Olson. The super-  
intendent looked back, saw the re-  
mainder of the coat tail and felt the  
breath of flames up his neck and with  
the assistance of the farmer the con-  
flagration was checked and Olson  
continued with a coat minus a tail.

**Hunter-Vaars**

A quiet but pretty wedding cere-  
mony took place at the Catholic  
church at Deerwood Thursday morn-  
ing at 9:30. Rev. Father Quillien  
officiating, when Miss Rose Vaars,  
daughter of Mr. and Mrs. Peter  
Vaars of Brainerd, became true bride  
of Mr. Herman Hunter of Manganau-  
ese.

The bride was attired in a beau-  
tiful gown of Alice blue messaline  
and carried a bouquet of white and  
pink carnations. She was attended  
by her sister Miss Gertrude Vaars,  
who wore a gown of blue charmeuse.  
The groom's best man was his brother,  
Raymond Hunter.

The bride is well and favorably  
known in Brainerd and has for the  
past five years been a popular teacher  
of this county. The groom is em-  
ployed as a driller in Ironton. After  
a sumptuous wedding breakfast at  
the home of the groom's sister Mrs.  
G. Peck, the happy couple left on a  
short wedding trip to the southern  
part of the state after which they  
will make their home in Manganau-  
ese.

Mrs. Vaars, mother of the bride,  
attended the wedding.

He Found He Couldn't Dictate to a

That sprouting Scotch peer, the Earl  
of Levon, who rebuked a ship news re-  
porter who approached him by declar-  
ing that "no gentleman ever speaks to  
another without an introduction; it  
simply isn't done," is an old friend of  
James Francis Dwyer, the Australian  
novelist—that is, Dwyer doesn't actu-  
ally know the Earl of Levon, but he  
knows his sweetly British sort.

"I ought to," said Dwyer. "I was  
broke in London and I learned to  
know the true Briton. Once I an-  
swered an advertisement for a literary  
secretary. To make certain that my  
letter would be read I wired the ad-  
vertiser as follows:

"Do not engage a literary secretary  
until you have read my letter of ap-  
plication."

"That letter was a gem. I thought I  
would land the place with it sure. I  
was certain of it when a large, square  
letter directed me to appear at a nam-  
ed address at a given hour. It was a  
four penny bus ride, but I didn't care.  
My fortune was opening out before me.  
I squandered the fourpenny without a  
misery thought. A pompous butler  
ushered me into a black oak library,  
where the original stuffed model of  
John Bull sat at a table. I sat down  
meekly and waited to be spoken to.

"Blam! He hit the desk with his  
clenched hand.  
"You cannot dictate to an English  
man," said this old image.

"No, sir, I said.

"I tell you," he shouted, "you cannot  
dictate to an Englishman!"

"Certainly not," I said.

"But you tried to," he said. "You  
sent me this impertinent telegram. No  
Englishman would have done that. It  
was an American trick.

"I tried to soothe him, for I wanted  
that job. But he got hotter and hotter.  
Finally he told me outright that he had  
hired a young man who once had work-  
ed for a lord.

"I have sent for you," said he, "and  
you should be grateful to me in order  
to teach you a proper respect for the  
traditions of England and for the Brit-  
ish flag."

"You old fossil," said I. "If I had a  
British flag here I'd tear it in two and  
choke you to death with it."—Chicago

## A COMBINATION PLANT DISCUSSED

Booster Club Listens to Proposition of R. M. Dungan of Eveleth to Install Steam

### LIGHTING AND HEATING PLANT

Public Market, Soo Railway and Publicity Argued—Many New Members Accepted

Last night the office of Attorney George H. Gardner was crowded to its greatest capacity by a gathering of the Boosters club and things were discussed without gloves and in the frankest manner possible.

Subjects for debate were railway matters, the entrance of the Soo into Brainerd, public markets, George H. Crosby's project to install a public market in Duluth, the public market at Dubuque, Iowa, R. M. Dungan's proposition to light and heat Brainerd with a steam lighting and heating plant, the Commercial club and other matters of pertinent interest.

Jay Henry Long brought out a big map of Minnesota and with his pointer traced what he thought would be the extensions of the Soo would project in northern Minnesota this year. "We have to get the Soo into Brainerd or this town will be practically at a standstill," said Mr. Long. "We must have connection with Crosby, Ironton and Cuyuna and the other coming north range towns. Much business will be brought to Brainerd and Brainerd in turn will patronize the range if reciprocal relations are established joining the towns with bands of steel rails.

"Getting this range connection is only a small part of the proposition. The Soo, to all intents and purposes, is planning on a north and south line from International Falls through the richest portion of Minnesota." Mr. Long showed the various small gaps which the Soo could easily bridge over and which would eventually bring the line to Roper, 20 miles north of Emily. "The point then arises," said Mr. Long, "do we want the Soo to continue on through Crosby and miss Brainerd?"

Other speakers called attention to the activity in the city for gasoline car connection with the range and the movement now fostered by the Commercial club to get the Northern Pacific officials committed to this plan for better communication with the range towns, and spoke favorably on the activity of the club in its behalf.

R. M. Dungan of Eveleth, in charge of a large steam lighting, power and heating plant at that town, addressed the club relative to the matter of installing a similar plant in Brainerd. Mr. Dungan said he was glad to meet with the Boosters. Entering the city at this time with any lighting or power plant virtually meant buying a lawsuit. But when these matters were settled he believed his company would be able to enter the field in Brainerd and absorb the present plant and much of its equipment. The heating system in connection with his proposed plant would be run partially on exhaust steam generated and would be at its maximum capacity from 6 to 11 P. M. It would be necessary to have some kind of a day load, but that could be arranged by getting the city pumping.

"Business men of Brainerd appear to favor a heating plant. At Eveleth our company has 20,000 feet of radiation. People in the residence section are clamoring for the extension of the heating system to their part of town. The combination plant has been operating four years, and has been a marked success. Steam can be transacted two or three miles and connection can be made with steam or hot water plants, insulating to the building its structure and its location and exposure. But nevertheless there is a great saving effected by the use of heat from the station. It eliminates smoke, ashes, soot, cuts down fire insurance rates, fire risks, repairs and janitor service.

"The pipes would be placed seven and one-half or more feet below the surface to get below the frost line." As to the cost of electric current Mr. Dungan said the present figures in the Tolst contract were rather low, but he believed a satisfactory figure could be arrived at with his company whenever negotiations were opened up.

Attorney Broady mentioned that in his home town the condensation was metered and that even if the cost of steam equalled the coal bill, one was ahead on the proposition.

The proposition of Mr. Dungan was referred to the proper committee by President Adair and the club on motion of Rev. Campbell, thanked Mr. Dungan for his address. The club confirmed the committee assignments made by President Adair.

Rev. Campbell brought up the matter of changing the meeting night from Thursday to Friday as on the latter date more traveling men, newspaper men and ministers could attend. Thursday nights the weeklies of the city were printing their editions and many of the ministers of the city were conducting prayer meetings. On motion, the suggested change in the by-laws will be voted on at the next gathering.

New members of the club accepted were Claus Theorin, W. A. M. Johnston, John T. Imgrund, Mayor H. P. Dunn, N. Schlange, J. F. Smart, J. (Continued on page 1)

## WOMEN LOSE LIVES IN BURNING HOME

Special to Dispatch:

Pine River, Minn., January 10—Miss K. Evangeline Barentzen, a maiden lady aged fifty-six, and her invalid mother, Mrs. Martha M. Barentzen, aged eighty-three, lost their lives in a fire which destroyed the home of Jas. N. Huffman in Bungalow town west of here sometime Tuesday, the house with the entire contents being destroyed. Mr. Huffman left in the early morning about six o'clock to go to Backus and when he returned about 3:30 in the afternoon he found the building burning and fallen in and the women folks missing.

Coroner Miskella was summoned from Cass Lake but when he visited the scene Wednesday afternoon all he could find of the missing women was a few charred pieces of bone and one small piece of flesh. The house was constructed of large Norway pine logs and burned fiercely and the flames were still playing when the coroner came away on Wednesday evening.

The origin of the fire is unknown but it is the general opinion that it must have caught from an overheated stove. Neighbor farmers three miles away saw the smoke about 10:30 but supposed it was a hay stack burning. Miss Barentzen was Mr. Huffman's housekeeper and her invalid mother lived at the place with her. The supposition is that the daughter was out of the building when the fire started and was overcome with the smoke or flames when she rushed in to save her mother and both perished. The only relative known is a Mrs. Voshel at Backus who left the Huffman home with Mr. Huffman that morning to return to Backus, after a few days visit with her sister and mother.

## MOTION TO ADVANCE CASE IS DENIED

State Supreme Court Gives Opinion in Schwartzkopf et al vs the City of Brainerd

### STATUS OF CASE GIVEN BY COURT

Mandamus Proceeding Brought to Compel City to Try President W. & L. Bd. for Malfeasance

The state supreme court has refused the application of Attorney C. A. Russell to advance on the calendar the case of the state of Minnesota on the relation of Hugo Schwartzkopf and R. M. Sheets respondent vs the city council of Brainerd.

The court states: "This is a mandamus proceeding brought to compel the city council of the city of Brainerd to proceed to try the president of the water and light board of that city for malfeasance in office. The defendant, the appellant on this appeal, moved to quash the alternative writ. On November 25th, the district court made an order denying said motion and allowing said defendant to answer within five days on condition that the cause be placed on the December 3rd calendar of said court for trial on the merits.

"On November 29th, the defendant appealed to this court. On December 28th, 29 days later, the plaintiff gave notice that a motion would be made in this court January 6th for an order placing the appeal on the present term calendar and for an immediate hearing thereon. The moving papers represent that an adjourned term of the district court of Crow Wing county will convene January 14th and an early hearing of the appeal is sought to the end that if the order of the district court is affirmed, this court may order the cause placed on the district court calendar and tried on the merits at said adjourned term.

"Should the case be placed on this calendar, some time must be allowed for the proper submission of the case and for a proper determination thereof. If the order is affirmed, defendant will be entitled to answer and some time must be allowed for that purpose and for preparation for trial. Manifestly the time intervening before January 14th, the date of the district court term, is now so short that the trial of the case by the court at that time is not practicable.

"The purpose of advancing the case must accordingly fail, and the application is denied.

### WOODMAN BILL PREPARED

The Insurgent Measure to be Introduced in the Legislature Coming Week in Regular Course

The committee of Modern Woodmen of America in charge of the bill intended to give member of this order an opportunity to form a separate jurisdiction in Minnesota, decided not to ask the legislature to pass the bill under suspension of the rules. It is expected the bill will be introduced early next week. A preliminary poll shows seventy or seventy-five house members in favor of the bill, according to the insurgents, says the Minneapolis Journal.

If the new jurisdiction is formed, a new ritual will be adopted, the head camp copyrighted the present ritual of the Modern Woodmen. The bill provides that when the separate jurisdiction takes over the property owned by the Modern Woodmen of America in Minnesota, compensation must be made to the parent order or to its members who wish to remain with the parent order.

John L. Sundeen of Minneapolis, field manager of the Woodmen assembly, expects to leave at once on a tour of the state in the interest of the measure.

### MAKES PIMPLES GO

Remarkable How Zemo Clears the Face of Pimples and all Other Blemishes

With the finger tips apply a little Zemo to the skin, then see the pimples and blackheads vanish. Zemo is a liquid, not a smear, leaves no trace, just simply sinks in and does the work. You will be astonished to find how quickly eczema, rash, dandruff, itch, liver spots, salt rheum and all other skin diseases are cured.

Zemo is put up by the E. W. Rose Medicine Co., St. Louis, Mo., and is regularly sold by all druggists at \$1 for the large bottles, but you can get a liberal size trial bottle free for only 25 cents. And this trial bottle is guaranteed. You surely will find Zemo a wonder. Get a bottle now from Johnson's Pharmacy.—Adv.

### ROUNDING INTO FORM

Brainerd High School Basketball Team Ready for a Fast Game Friday Night

The high school basketball team is coming into their stride better every day. On Wednesday evening after a two hours practice after school they played a practice game with the Y. M. C. A. The game was fast and both teams extended themselves to score. The score was very close, no official count being kept.

After working about 40 minutes with the Y. M. C. A. such "stars" as Dutch Trent, Happy Alderman, Runt Parry, Paddy Carlson and the Speed boy rush were taken on and found that the B. H. S. could still play ball.

The following are showing up exceptionally strong: Tucker, White, McGinn, Day, Carlson, with Vaughan, Orne and Duraam running a close second.

Staples has notified Coach Callan that they will be on hand to win but our boys are ready to get a score large enough to carry away the prize. Be sure and come to see this game and hear the school orchestra.

## GOOD WORD FOR MINE INSPECTOR

August Swanson, First Appointee, Formerly Worked for Kennedy Mine and in Michigan

### IRON MOUNTAIN IMPROVEMENTS

Aitkin Ladies Visit Crosby—Other News of a Social and Business Nature of Crosby

Crosby, Minn., January 9—On the ninth ballot taken by the county commissioners in session at Brainerd, August Swanson of Barrows, formerly employed at the Kennedy mine at Cuyuna received the appointment of mining inspector for the Cuyuna district. There were twelve applications for the position. Mr. Swanson has had a large experience on the range as well as in the iron country of Michigan and will, no doubt, fill the position in a capable manner.

T. J. St. Germain and B. F. Forrestal of Duluth, were in the city the first of the week and stated that the Iron Mountain company have practically completed arrangements for extensive improvements to its property near Crosby. The shaft will be enlarged to three compartments 6 by 14 ft. inside measurement, and will be sunk to a depth of 200 feet. The shaft will be built practically the same as the one at the Cuyuna-Duluth property and will permit of the operation of two skips. A large tubular boiler will be installed as a reserve to be used in case of accident to the present one. Material for the improvements planned has already been contracted for. The company expects to be in a position to ship 20,000 tons next year. It is reported that the Soo line has already completed a survey to the property.

On Thursday of last week Crosby was honored by a visit of nine of Aitkin's fair ladies who drove in sleighs. The party arrived in the morning and were guests at the Spalding for dinner, after which they viewed the town and returned home during the afternoon. In the party were Miss M. Irene Hodgden, Mrs. S. H. Hodgden, Mrs. W. E. Gwaltney, Mrs. Petraborg, Mrs. Krelwitz, Mrs. Warren Potter, Miss Potter, Mrs. C. H. Warner and Miss Adah Wotrings.

Oscar Johnson, a homesteader living north of the Mississippi river near Dean lake died here of tuberculosis on Monday night. The body was taken to Deerwood by D. M. LaChance of the Crosby Hardware company and shipped to the former home of Mr. Johnson in Iowa.

### Escaped After Fifteen Years

He says: "They cured a most severe backache with painful bladder irregularities, and they do all you claim for them." Refuse substitutes. H. P. Dunn, druggist.—Adv.

### Banishing the Avalanche

Along the side of an Alpine railroad an ingenious device has been put into use to prevent avalanches from falling upon the track. A wall has been built which intercepts the sliding snow and forces it to precipitate itself in a leap, whereby it clears the roadbed and huris itself into a canal upon the other side.

## PANAMA STAMPS ARE ON SALE

Local Postoffice Announces Arrival of Consignment of Panama Exposition Series of Stamps

### WILL BE SOLD ON REQUEST

Two Cent Denomination Not Received, but Will be Furnished Later, Owing to Limited Supply

The 1915 Panama exposition stamps, commemorative of the world's fair to be held in San Francisco have been issued by the government and the local postoffice received a consignment this morning. The stamps consist of the one, five and ten cent denominations and will be sold only on request. The two cent denomination was not received, the demand for them being so great that the supply was exhausted before the offices that made requisition for the stamps were all supplied, and they will be sent later and the public will be given notice of their arrival through the press of the city.

The series is very similar to those issued at the time of the Pan-American exposition in St. Louis in dimensions. The one cent adhesives are green and bear a picture of Balboa, discoverer of the Pacific ocean. The two cent stamps are red and bear as pictorial subject the Gatun Locks of the canal showing a merchant steamer passing through one lock and a warship through another. The isthmus mountains and palm trees furnish a background. The five cent stamps are blue. They picture the Golden Gate harbor at San Francisco with a sunset as background. A steamer and sailing vessel appear upon the bay. The discovery of San Francisco Bay is the subject matter employed in the dark yellow 10 cent stamps.

### VOTE ON MINE INSPECTOR

Twelve Applicants for Position—August Swanson of Barrows, Wins on 9th Ballot

There were twelve applicants for the position of mining inspector which included August Swanson, of Barrows, the successful applicant; former County Commissioner G. F. Edquist, of Nokay Lake; Robert L. Clemens, Crosby; County Surveyor F. A. Glass, Brainerd; C. E. Rogers, of Deerwood; Edward B. Congdon, of Crosby; F. S. Benjamin, of Crosby; Joseph Herbst, of Riverton; H. B. Blackwood, of Crosby; T. H. Martin, of Crosby; John A. Hoffbauer, of Brainerd; D. R. Hillis of Crosby. Nine ballots were taken.

The first ballot was Swanson 1, Glass 2, Clemens 1, Martin 1. The second ballot: Swanson 1, Edquist 1, Glass 1, Clemens 1, Martin 1. On the third: Glass 1, Clemens 1, Martin 1, blank 1, Rogers 1. On the fourth: Swanson 1, Glass 1, Clemens 1, Hoffbauer 1, Martin 1. On the fifth: Swanson 1, Glass 1, Clemens 1, Martin 2. On the sixth: Swanson 2, Clemens 1, Martin 1, blank 1. On the seventh: Swanson 1, Glass 1, Clemens 1, Martin 2. On the eighth: Swanson 1, Glass 2, Clemens 1, Martin 1. On the ninth: Swanson 3, Edquist 1, Blackwood 1.

## WATER WORKS AND SEWER PLANNED

Believed the Matter Will be Taken up at the Spring Election in Deerwood

### SOCIAL NEWS IN DEERWOOD

#### Lake Superior Iron Syndicate Incorporated, Will Explore Cuyuna Range Lands

Deerwood, Minn., January 10.—It is highly probable that the question of having sewers and water works in Deerwood will be placed squarely before the people at the spring election. Many favor these improvements and now that Cuyuna has waterworks and Crosby has both waterworks and sewers, many think the time is ripe to commence these improvements in Deerwood.

A surprise party was given Miss Marcella Keating on Monday evening. Those present were the Misses Margaret Torgerson, Agnes I. Lamb, Esther Theorin, Maude and Lillian Hage and Messrs. Julius Hage, Hugo Barthelme, Gust Oberg, E. A. Arnold and William Seafeld. Cards were played and all spent an enjoyable evening.

Although the principal place of business of the Lake Superior Iron Syndicate, Incorporated is in Duluth, the main activity of the corporation will be exemplified in the exploration and development of the Cuyuna range. The company hopes to soon take up options and commence the development of mineral lands. In the company are H. H. Garceau, assistant cashier of the First National bank of Crosby, Attorney A. W. Uhl of Crosby, and Julius Hage, assistant cashier of the First National bank of Deerwood. The company is incorporated for \$100,000. With officers of the company residing at Crosby and Deerwood an observant eye will be kept on the developments of the range and full advantage will be taken of any opportunities presented for good investments.

The jeweler, Mr. Wright, has removed to Bertha, Minn.

The council had no meeting on Tuesday because no quorum was present.

The engineering department of the Cuyuna Northern railway has gone to St. Paul, having finished for a time their work at and near Deerwood.

B. Magoffin, Jr., lost a valuable dog when Dixie died. The animal was highly prized by Mr. Magoffin and he tried many remedies to save the dog's life. He will have an examination made of the body to definitely ascertain what was the matter with the animal.

William Elmore caught a 19 pound pickerel which had just grabbed a half pound bass, the fish being in its jaws. Another one speared by Mr. Elmore had a crapple in his mouth. The weights of other pickerel speared ranged from 12 pounds up.

Oscar and Arthur Carlson are drilling in the vicinity of Manganese.

Prof. Theodor Reimstad, the noted tenor soloist of Minneapolis, will be heard in concert at Deerwood on Wednesday evening, January 15th, at the Scandinavian Lutheran church. He has sung in Brainerd and throughout the west and delighted many audiences by his singing.

W. R. Fox, 195 W. Washington St., Noblesville, Ind., says: "After suffering many months with kidney trouble, after trying other remedies and prescriptions, I purchased a box of Foley Kidney Pills which not only did me more good than any other remedies I ever used, but have positively set my kidneys right. Other members of my family have used them with similar results." Take at the first sign of kidney trouble. H. P. Dunn, druggist.—Adv't. mwf

#### "THERE AIN'T NO WINTER"

Minnesota Climate is so Invigorating that the Usual Exodus to Southern Climes Will Cease

The Hibbing Tribune says: "Mosquitoes are biting the people at Little Falls, flies annoy Brainerd and trees in the southern part of the state are budding. What's the use of going away from Minnesota to spend the winter? In the greater part of the state 'there ain't no winter'—yet."

#### As It Looked to Him.

The philanthropic lady was visiting a lower east side school. To test the brightness of some of the poorer pupils she asked them:

"Children, what is the greatest of all the virtues?"

No one answered.

"Think a little," she said. "What is it I am doing when I give up time and pleasure to come and talk with you for your good?"

A grimy fist went up.

"Well, what am I doing, little boy?"

"Buttin' in!"—Denver Republican.

#### Cut the High Cost of Living

W. H. Chapman, Winnebago, Neb., tells how he did it. "My two children had a very bad cough and the doctor's medicines did them no good. I got a bottle of Foley's Honey and Tar Compound, and before it was all used the children were free and cured of their cough. I saved a doctor's bill for one 25c bottle of Foley's Honey and Tar Compound." No opiate. H. P. Dunn, druggist.—Adv't. mwf

### BOUCK IS ON THE JOB

Claims Lindbergh's Friends Tried to Defeat Him With a Democrat—On Steering Committee

The St. Cloud Journal-Press says: "Hon. C. W. Bouck of Royalton, is chairman of the Sixth district steering committee, and won a personal victory in making Crawford Sheldon of Little Falls, enrolling clerk of the house, one of the fattest plums to be given out by the house. Bouck charges that Congressman Lindbergh's friends tried to defeat him for a democrat and when the re-apportionment of the congressional district comes up if there is any way to lose Lindbergh, Charley will find the way, as he is a hard fighter, but always out in the open."

### PAPE'S DIAPEPSIN ENDS INDIGESTION

Time it! No sick, Sour, Gassy Stomach, Heartburn or Dyspepsia in Five Minutes

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diapepsin is noted for its speed in giving relief; it's harmless; it's certain unfailing action in regulating sick, sour, gassy stomachs. It's millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat anything which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. It's promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.—Adv't.

## \$40,000 HOTEL FOR IRONTON

Planned by Peter Spina—To be of Brick, Three Stories High and Fireproof

### SEWER AND WATER IN TOWN

Payrolls of Mines \$20,000—Prosperity is Evident on all Sides in Ironton

Ironton, Minn., January 10.—Peter Spina plans the erection of a three story brick hotel costing over \$40,000, to be of fire proof construction and modern design and located on the corner of Fourth street and Ironton avenue. The dimensions are to be 75 by 100 feet. A good hotel of metropolitan style will do much to boom Ironton.

Another improvement projected for the spring season is the reported building of water works and sewers. The talk about Ironton running short on water because the mines were pumping so much will not stop the growth of Ironton. Sources for a plentiful supply for their waterworks can easily be located.

The payrolls at the mines now run up to \$20,000 a month and thebursement of this money has done much to create prosperity in the town.

The Crosby-Ironton basket ball team plays the Brainerd Y. M. C. A. team at the roller skating rink Friday evening.

The Cuyuna-Duluth mine is down 90 feet.

The Pennington mine has over a hundred men on its payroll. The pit mine is 80 rods west of Ironton.

The Ellington Brothers are remodeling their store and will drop the drygoods and later handle only groceries and meats.

W. G. Anderson and family have removed from Deerwood to Ironton.

School children from Crosby Beach the Cuyuna-Mille Lacs mine and other points attend the Ironton school.

During the long, dreary winter months mothers become tired, worn out, can't eat, sleep or work. Hollister's Rocky Mountain Tea is the greatest blessing for mothers. Makes them happy, healthy and strong. H. P. Dunn.—Adv't.

King, M. E. Hitch, A. Everett, I. J. Zigan, John A. McColl, H. Squires, Dr. Karl H. Hoorn and Supt. W. C. Cobb.

A public market in Brainerd was championed by Attorney Gardner and he cited the work George H. Crosby had done to start a market in Duluth, Mr. Crosby offering \$2,500 to commence the project. Reference was made to the public market in Dubuque, Iowa, an institution which has been in successful operation for 50 years. A marketmaster has charge of the stands which pay a small rental. All kinds of produce is sold by the farmers and truck gardeners and Dubuque people would as soon sell their homes as lose their beloved market. It is one of the institutions of the city, modeled in part by the early settlers after the market in Cincinnati, Ohio.

Jay Henry Long took up the storm which the Greater Duluth club had started in Duluth and in which P. E. Dowling was the central figure in rapping the railroads and the commercial club. There are three clubs in Duluth, the Commercial club, the Greater Duluth club and the Rotary club.

"Referring to Brainerd," said Mr. Long, no one wished to break up the Brainerd Commercial club. All the members of the Boosters club desired to do was to boost the Commercial club as well as any other agency in the city which believed in the advancement of Brainerd. We were all working for Brainerd, whether it was a Commercial club, labor assembly, the unions, the churches or any other public agency. If we spoke a good word occasionally for the Soo line, it should not be taken as a knock against the Northern Pacific railway."

The long indoor life of winter makes the blood weak, the system easily catches cold and disease. Hollister's Rocky Mountain Tea is the greatest winter remedy; prevents colds and disease; keeps you well all winter. 35 cents. Tea or tablets. H. P. Dunn.—Adv't.

## UGH! HOW CHILDREN HATE CASTOR OIL

To Clean the Little One's Stomach, Liver and Waste-Clogged Bowels Give Gentle "Syrup of Figs"

Look back at your childhood days. Remember the physic that mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. The day of harsh physic is over. We don't force the liver and 30 feet of bowels now; we coax them. We have no dreaded after effects. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their little stomachs and tender bowels are injured by them.

If your child is fretful, peevish, half sick, stomach sour, breath evil and its little system full of cold, has diarrhoea, sore throat, stomach-ache; doesn't eat or rest well—remember—look at the tongue, if coated, give a teaspoonful of Syrup of Figs, then don't worry, because you surely will have a well, smiling child in a few hours.

Syrup of Figs being composed entirely of luscious figs, senna and aromatics simply cannot be harmful. It sweetens the stomach, makes the liver active and thoroughly cleanses the little one's waste-clogged bowels. In a few hours all sour bile, undigested fermenting food and constipated waste matter gently moves on and out of the system without griping or nausea.

Directions for children of all ages, also for grown-ups, plainly printed on the package.

By all means get the genuine. Ask your druggist for the full name "Syrup of Figs and Elixir of Senna" prepared by the California Fig Syrup Co. Accept nothing else.

# You Can't Make Your Farm Pay If You Eat the Doughnut and Offer the Hole as Collateral

THERE'S a man out in Illinois who owns a bank and lends money to farmers. He wanted to get at both sides of the question of borrowing and lending, so he got busy on a half-section of land and farmed it on the principle of a square deal to the soil. What he found out was this: It's bad business, both for the farmer and the banker, for the farmer to eat the doughnut and offer the hole as collateral on a loan.

It's one of those simple solutions of a big financial problem that engaged the attention of the President of the United States and a group of Governors, meeting at the White House to discuss this great problem only a few weeks ago. Presidents of Insurance Companies, bankers, men and institutions with money to invest, farmers who want to borrow money—all these people will agree with us that Mr. Harris has thrown the searchlight of common sense on a subject that seemed as thick as a London fog.

There is a host of good things in this week's issue of THE COUNTRY GENTLEMAN, but

BRITISH VESSEL  
FLASHES S. O. S.Steamer Alcazar in Peril Off  
Cape Hatteras.

NO ASSISTANCE AVAILABLE

All Revenue Cutters in That Vicinity  
Are Engaged in Aiding Other Ships  
In Distress—Last Call Indicates Ves-  
sel Is in a Serious Position—Had  
Just Been Released From North  
Carolina Coast.

Norfolk, Va., Jan. 10.—The British  
steamer Alcazar, recently ashore off  
the North Carolina coast and which  
started for Philadelphia, is again in  
distress. She is three miles off Cape  
Hatteras at anchor and leaking badly  
and has twice sent wireless appeals  
for assistance. No revenue cutters  
are available to send to her assist-  
ance, all of them being engaged in  
aiding other vessels in distress.

When the wireless appeals were re-  
ceived the Alcazar apparently was in  
a serious position. When he learned  
of the vessel's plight Barton Myers,  
British vice consul here, sent a mes-  
sage to the cutter Seminole asking its  
renewed assistance.

Every effort is being made to reach  
the distressed vessel, which was re-  
leased from the shoals off Cape Hat-  
teras by the Seminole and which pro-  
ceeded on her way north apparently  
undamaged.

## PERISH IN BURNING HOME

Woman and Her Invalid Mother Lose  
Their Lives.

Pine River, Minn., Jan. 10.—Miss K.  
Frangelina Barentzen, aged fifty-six,  
and her invalid mother, Mrs. Christine  
M. Barentzen, aged eighty-three, lost  
their lives in a fire which destroyed  
the home of James N. Hoffman in  
Bungo, a town west of here. The  
house with its contents was destroyed.

Mr. Hoffman left in the early morn-  
ing and when he returned late in the  
day found the house burned and fallen  
in and the women missing. Coroner  
Kirkella of Cass Lake was summoned  
and visited the scene, but found only  
fragments of bones and a small piece  
of human flesh in the wreckage in the  
cellar.

## WHEELING AT FLOOD MERCY

Railroad Traffic Stopped and Fac-  
tories Forced to Suspend.

Wheeling, W. Va., Jan. 10.—The  
Ohio river reached a stage slightly  
under 44 feet and this city is in the  
midst of its most disastrous flood,  
with the exception of the visitations  
of 1884 and 1907.

Railroads, trolley lines and steam-  
boats are all out of commission and  
the city is practically isolated.

In some sections of the city the nat-  
ural gas supply is cut off, which  
caused much suffering. A majority of  
the iron and steel mills have been  
forced to suspend and upwards of 10,  
000 men are idle.

## TWO KILLED BY A TRAIN

Woodsman and Former Brakeman  
Meet Death.

Two Harbors, Minn., Jan. 10.—The  
frozen bodies of two men were found  
lying eight miles apart alongside the  
Duluth and Northern Minnesota rail-  
road tracks.

One was identified as Sam Urban,  
woodsman, aged thirty-two. The other  
was that of Ed Gallagher, thirty-two  
years old, single, formerly a brakeman  
on the Duluth and Northern Minne-  
sota railroad.

Marks on the bodies showed the  
men had been struck by a train.

## JOHNSON AGAIN IN COURT

Judge Carpenter ready for trial on a  
charge of smuggling a diamond neck-  
lace valued at \$6,000 into this country  
from England two years ago.

The ornament was presented to his  
former white wife, who committed  
suicide in Chicago several months  
ago. Later the necklace was confiscat-  
ed by the government.

Judge Carpenter continued the trial  
indefinitely and said he desired to  
dispose of the indictments charging  
the negro with violation of the Mann  
white slave act before taking up the  
smuggling case.

of Any Wrongdoing.

## ASK SENATE FOR ACQUITTAL

Closing Arguments for the Defense in  
Impeachment Trial Before Senate  
Warn Against Any Action Based  
Upon Appeal to Passion or Prejudice.

Washington, Jan. 10.—A protest  
against any action by the senate  
based upon an "appeal to passion or  
prejudice" marked the closing argu-  
ments in the defense of Judge Robert  
W. Archbald of the United States com-  
merce court, on trial for misbehavior  
as a federal judge.

Declaring that Judge Archbald has  
violated no law, is guilty of no mis-  
demeanor or wrongdoing and has  
been shown to be a jurist of high in-  
tegrity and honesty his attorney,  
Alexander Simpson, Jr., of Philadel-  
phia and A. S. Worthington of Wash-  
ington, made a vigorous appeal for ac-  
tion by the senate within the limits  
of legal procedure.

"Unless senators are going to vio-  
late their oaths they cannot possibly  
convict Judge Archbald," declared Mr.  
Simpson, "because it has been dis-  
proved in each charge that he was  
guilty of no wrongdoing or of any  
crime."

The declaration of Manager Sterling  
in the opening speech for the prose-  
cution that "the Constitution was on  
trial" brought bitter denunciation  
from both Mr. Simpson and Mr.  
Worthington. They declared the  
house managers were striving to im-  
peach Judge Archbald upon grounds  
that would not be recognized in any  
court.

"It is not true the Constitution is on  
trial," said Mr. Simpson; "but what is  
on trial is the question of whether or  
not the senators who sit here can rise  
to their position as judges and decide  
this case upon the evidence produced  
and the law that governs it, or whether  
they are to be swayed by the ap-  
peals to passion and prejudice."

"If you are going to say that a man  
shall be turned out of office although  
he has violated no law, although his  
decisions have been impartial, al-  
though he has been an upright and  
honest judge, then you are turning  
back the hands on the dial of time to  
the point three or four centuries ago  
when the house of lords, at the be-  
hest of the house of commons, turned  
men out of office simply because they  
did not agree with them. In that re-  
spect the Constitution is on trial."

Mr. Simpson said the construction  
put upon Judge Archbald's acts by  
the house led to the inevitable con-  
struction that a judge would not be  
permitted to order a suit of clothes  
in a tailor shop owned by one who  
might some day be a litigant in his  
court.

## HONOR GOVERNOR EBERHART

Thousands Attend Inaugural Recep-  
tion at St. Paul.

St. Paul, Jan. 10.—All Minnesota  
paid honor to Governor Eberhart  
when the first inaugural reception  
given in twenty years was held at the  
capitol. The reception brought out  
a gathering that has not been equalled  
in representative citizenship of the  
state since Governor Merriam, years  
ago, was feted in the old capitol.

St. Paul was represented at the in-  
augural by hundreds. Scores came  
from Minneapolis. Delegations from  
various places over the state empha-  
sized the public nature of the recep-  
tion.

There were 6,500 present at the re-  
ception, it was estimated. Practically  
all of the thousands present passed  
by the receiving line to congratulate  
the governor and Mrs. Eberhart to  
acknowledge formally the re-election  
of the state's chief executive.

## DIVORCE RECORD IS BROKEN

New York Judge Tries Five Cases in  
Thirty-two Minutes.

New York, Jan. 10.—Justice New-  
burger of the supreme court was not-  
ified by his smiling retainers that he  
had broken Justice Gregerich's rapid  
fire divorce trial record and now holds  
the "championship belt" for this juris-  
diction.

Newburger's accomplishment con-  
sisted in trying five divorce cases in  
thirty-two minutes. Gregerich's re-  
cord was seven cases in forty-seven  
minutes.

Untimely appearances in pajamas  
figured in three of the cases tried by  
the new record holder and the other  
two were based mainly on the indis-  
creet, to say the least, use of kimonos.

## Indian Bill Is Passed.

Washington, Jan. 10.—The Indian  
appropriation bill, carrying approxi-  
mately \$8,000,000, was passed by the  
house. The principal items include  
for gratuity appropriations \$6,084,093,  
for fulfilling treaty stipulations \$1,  
740,560, and for reimbursable items  
\$850,000. A total of \$217,675 was ap-  
propriated for Minnesota Indians.

## CARTER HARRISON.

Mayor Declares Chicago Is  
Dumping Place for Criminals.

## CRIME WAVE LAID TO COURTS

Mayor Says Chicago Is Dumping  
Ground for Ex-Convicts.

Chicago, Jan. 10.—Chicago is the  
"dumping ground" for paroled con-  
victs; declared Mayor Harrison in a  
vigorous statement in which he de-  
nounced the leniency of the courts as  
responsible for the present crime  
wave.

"Too much sentiment in dealing with  
criminals, he charged, is responsible  
for the epidemic of highway robberies  
and holdups. Leniency to persons  
caught with revolvers is another grave  
mistake, according to the mayor.

"In a statement given me," the  
mayor said, "it was shown that this  
city in December was made the dump-  
ing ground for sixty-seven paroled  
convicts from the Illinois peniten-  
tiary. Officially I protest against  
this."

TEN KILLED WHEN  
BOILERS BLOW UPSixteen Others Injured in Steam-  
ship Explosion.

Mobile, Ala., Jan. 10.—Ten persons  
were killed and sixteen were seri-  
ously injured when the river steam-  
er James T. Staples was wrecked by  
an explosion of its boilers near Bladen  
Springs, Ala. Thomas Bartee, cap-  
tain of the steamer, is among the  
known dead.

The injured were scalded, burned or  
struck by flying wreckage. The  
steamer sank within a few minutes.

## DESPERATE RIOT IN GOTHAM

Garment Workers Attack Police to  
Reach Lone Strikebreaker.

New York, Jan. 10.—The appear-  
ance of a solitary strikebreaker in  
front of a downtown clothing factory  
was the signal for one of the most  
desperate riots the police have had to  
contend with since the garment work-  
ers began their strike. Strikers at-  
tacked the man. Policemen went to  
his aid and in a few minutes more  
than 1,000 men and women were fight-  
ing to tear the strikebreaker from his  
protector.

A dozen more policemen rushed to  
the spot and began to make arrests,  
but most of their prisoners were  
wrenched from them almost as soon  
as they were taken.

The police used clubs and left a  
trail of broken heads.

## HUNDREDS OF HOMES FLOODED

But Water Now Is Receding at Pitts-  
burg.

Pittsburg, Jan. 10.—The crest of  
the river flood was reached here with  
a stage of 31.3 feet, eleven feet over  
the danger mark. The water is re-  
ceding. A large area, including a  
number of streets in the business dis-  
trict, suffered inundation and the loss  
is heavy.

Hundreds of homes in the lowlands  
are flooded and scores of manufactur-  
ing plants are idle, affecting over 5,000  
workmen.

## EPISCOPALIANS FOR UNITY

England Appoints Twenty Delegates  
for World Conference.

New York, Jan. 10.—Rev. Dr. Wil-  
liam T. Manning, rector of Trinity  
church in this city, received word  
from the archbishops of Canterbury  
and York announcing the appointment  
of a committee of twenty to represent  
the Church of England in the move-  
ment for a world conference on  
church unity.

The appointment of the Church of  
England committee is regarded as an  
important step in the world confer-  
ence movement which was first pro-  
posed by Dr. Manning at the Balti-  
more Protestant Episcopal conference  
about two years ago. Already about  
twenty demonstrations throughout the  
world have signified their intention to  
join in the conference.

CHANGE UNLIKELY  
IN INAUGURATIONPeople Who Go to Washington  
Want Regular Ceremony.

## WILL GET WHAT THEY WANT

Senator Bailey Had Big Audience  
When He Made His Recent Speech,  
as He Had Announced His Intention  
In Advance—Fur Seal Question to  
Be Lasting as the Seals.

By ARTHUR W. DUNN.

Washington, Jan. 10.—[Special.]—  
"Give 'em what they have been get-  
ting," is what one man remarked con-  
cerning the inauguration of the presi-  
dent. Any attempt to do something  
different meets with strong opposi-  
tion. The inauguration ceremonies  
cannot be changed very much.

The people expect to see the show-  
the trip of the president and president  
elect to the capitol, the ceremony in  
the senate, the swearing in of the presi-  
dent on the east portico, his inaugural  
address, the parade of three hours or  
more down Pennsylvania avenue and  
past the White House, the inaugural  
ball in the evening. All these must  
take place, rain or shine or snow or  
slush, and those who pay for the show  
are then satisfied.

The suggestion that any change be  
made, that Governor Wilson walk to  
the capitol instead of riding or that  
any of the details be modified, meets  
with objection, and it appears that the  
inauguration is a fixed event, with fixed  
ceremonials.

"Give 'Em What They Want"  
So the "give 'em what they want"  
suggestion will be the program. That  
the people do want the same thing  
every time is shown in the crowds  
which always attend the opening of  
a session of congress. The opening  
never varies, but the big crowds go to  
the capitol every year just the same.

And the same is true of the White  
House receptions. They are just alike  
each year, yet the same people are  
there if they live, and they see the  
same sights.

## Patent Laws Stand.

When the supreme court rendered  
the decision which gave owners of pa-  
tent control over the sales of the prod-  
ucts of the machines there was at once  
a demand that the patent laws should  
be modified. Bills for that purpose  
have been rushed forward with consid-  
erable speed, but more mature judg-  
ment seems to have halted congress to  
some extent. While the laws may be  
changed, there is not going to be any-  
thing radical, for there is a strong sen-  
timent that men should have all possi-  
ble benefits from their inventions. There  
will be no patent law amendments at  
this session of congress.

## It Pays to Advertise.

Senator Bailey gave notice more than  
two weeks in advance of his intention  
to speak in the senate. All the news-  
papers took to speculating upon what  
he might say. As a result he had a  
crowded senate, the house adjourned  
for want of a quorum because the  
members wanted to hear Bailey, the  
galleries were packed to suffocation,  
and even many diplomats were pres-  
ent. Bailey has often said that he  
did not like to announce his speeches,  
but in the recent case he was willing  
to have a good audience and took the  
best means of getting it.

## Our Fur Seals.

Ever since the fur of seals became  
very valuable we have had a fur seal  
question, and we will probably have  
one as long as we have Alaska unless  
we let them go as did the buffalo. It is  
a curious fact that for present gain cer-  
tain people would destroy everything.  
All the big game and the birds have  
to be protected or they would soon dis-  
appear. The desire to kill has as much  
as anything to do with the destruction  
of animal and bird life.

## Ex-Senators In Evidence.

Some ex-senators never go near the  
senate after their terms end. Aldrich,  
who was such a power when he was  
there, is rarely if ever seen on the  
floor. Hale has not been in the sen-  
ate in two years. Chandler of New  
Hampshire was there only a few  
times. Don Cameron, who used to say  
that about the only useful thing con-  
nected with the senate was that it  
gave a man the privilege of the floor  
ever after, has scarcely availed him-  
self of that privilege in fifteen years.  
But there are others who have fre-  
quently made their appearance on the  
floor. On a recent big occasion at least  
ten ex-senators were in evidence.  
They just went up to see how it seem-  
ed to listen to a great speech.

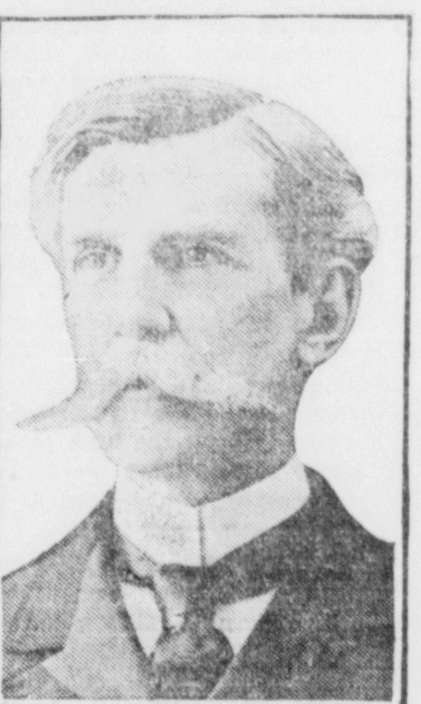

## Indian Bill Never Dies.

Once start an Indian bill providing  
for some sort of an appropriation from  
the treasury and it never dies. Sen-  
ator McCumber of North Dakota just  
before the holiday adjournment pro-  
vided this rule by introducing a bill to  
settle the claims of the Sisseton and Wah-  
peton and the Medawanton bands of  
Sioux Indians. Ever since 1862, when  
it was declared these Indians were im-  
plicated in the great Sioux massacre,  
there has been pending a claim for the  
payment of the annuities which were  
at that time suspended. The benefi-  
ciaries are nearly all dead, but their  
heirs survive, and what is more im-  
portant, the claim agents survive, and  
they will get most of any money that  
may be allowed.

character. It is honest, useful and  
cheerful.—Ruskin.

## JUSTICE HOLMES.

Denies Rumor That He Will  
Retire From Supreme Bench.

## HOLMES WILL NOT RETIRE

Associate Justice Denies Rumor That  
He Will Quit Bench.

Washington, Jan. 10.—Emphatic de-  
nial that he considers retirement from  
the United States supreme court was  
made by Associate Justice Holmes.  
"There is nothing to it whatever," he  
said. "I have not considered the ques-  
tion in any manner. The report is  
without foundation." Justice Holmes  
reached the retirement age last  
month.

ROOSEVELT OPPOSES  
MERGING PARTIESBelieves Progressives Should  
Continue to Work Alone.

New York, Jan. 10.—Theodore Roo-  
sevelt replied to a proposal advanced  
by Frank A. Munsey to bring the Pro-  
gressive and the Republican parties  
together. He said:

"I am simply speaking as one of  
the men in the ranks of the Progres-  
sive party. Personally I strongly feel  
that we should no more enter into a  
combination with the Republican ma-  
chine than with the Democratic ma-  
chine."

"I firmly believe that all good Pro-  
gressives who may happen yet to ad-  
here to either the Republican party  
or the Democratic party will in the  
end see that the chance for honest  
government and for the practical  
achievement of social and industrial  
justice lies in the Progressive party  
and only in the Progressive party."

"We welcome all honest men who  
believe in our principles. If they  
come in with us they shall have ex-  
actly the share that any other people  
have of the party management. I  
hold that we are under the same obli-  
gation to former Democrats, like  
Judge Lindsey and Don Dickinson, as  
to any former Republicans."

"To my mind, the whole attitude of  
those at present responsible for the  
leadership and management of the  
Republican party shows that it would  
be folly to try to combine with them."

## RATHENAU MEDAL FOR EDISON

Awarded for Best Electrical Device  
for Safeguarding Life.

New York, Jan. 10.—The invention  
by Thomas A. Edison of a storage bat-  
tery device which reduces danger to  
life and health of workers employed  
in mines, tunnels, submarine boats  
and other places where explosive  
gases generate has won for Mr. Edi-  
son the honor of being the first re-  
cipient in this country of the Rathenau  
medal, according to announcement here.

This medal, once presented by the  
emperor of Germany to Dr. Emil Rath-  
enau, was loaned to the American  
Museum of Safety, which will award  
a replica each year to the inventor of  
the best device in the electrical in-  
dustry for safeguarding life. Mr. Edi-  
son will receive the medal Jan. 23.

## Yorkshire Textile Dyers Strike.

London, Jan. 10.—The textile trade  
in Yorkshire is in danger of coming  
to a standstill through a strike of  
dyers for higher wages. Six thousand  
have quit work in the Bradford dis-  
trict; 5,000 more have given notice  
that they will quit in a week. The  
employers are willing to grant the in-  
crease demanded, but they want to im-  
pose a system of piece work, to which  
the dyers are opposed.

## DULUTH COW IS CHAMPION

Winner of Red Poll Cattle Club But-  
ter Test for 1912.

Duluth, Jan. 10.—Pear, a cow in the  
regular herd at a local farm, is the  
winner of the Red Poll Cattle club  
butter test and has been declared the  
holder of the record for Red Poll cows  
in America for 1912. The cow was  
entered by the Jean Duluth farm and  
was scored by J. W. Martin, official  
inspector.

## OPINION HITS MIDDLEMAN

Consumer Can Purchase Lumber Di-  
rect From Wholesaler.

Washington, Jan. 10.—The govern-  
ment's victory at New York against  
the so-called lumber trust is regarded  
by officials of the department of jus-  
tice as one of the most important ac-  
complishments under the Sherman  
anti-trust law, because it limits in  
large measure the power and privi-  
leges of the much discussed middle-  
man in commerce.

The decision is construed here as  
meaning that the consumer of lum-  
ber, untrammelled by the retailer, may  
purchase directly from the wholesaler  
or manufacturer and the latter may  
sell directly to the public without in-  
terference of a combination of re-  
tailers.

## WON'T GIVE UP ADRIANOPE

Porte Will Recall Delegates Unless  
Allies Meet Terms.

Constantinople, Jan. 11.—The porte,  
according to official announcement,  
has sent a circular to the Turkish am-  
bassador abroad, intimating that un-  
less the allies accept Turkey's peace  
proposals by the end of the week the  
Ottoman delegates will be invited to  
return to Constantinople. The circular  
adds:

"Whatever happens the porte is de-  
termined to maintain its attitude with  
regard to Adrianople and the Aegean  
islands, in view of the fact that sacri-  
fices made in other directions have  
reached the extreme limit."

## MINING COMPANY BANKRUPT

Calumet and Montana, Owned Prin-  
cipally by Minnesota Men.

Butte, Mont., Jan. 10.—The Calumet  
and Montana Mining company was ad-  
judged bankrupt in the federal court  
at Helena on the petition of the fol-  
lowing creditors. Butte Machinery  
company, with a claim of \$600; Ana-  
conda Copper Mining company, \$744.82,  
and the Continental Oil company,  
\$482.99.

The Calumet and Montana is owned  
principally by Minnesota men and was  
being highly boomed only a short time  
ago by advertising in Eastern papers.  
The property consists of the King Sol-  
omon mine, located near Clancy.

## TAFT CREATES BIRD RESERVE

Signs Order Setting Aside Small Is-  
lands in Lake Michigan.

Washington, Jan. 10.—President  
Taft signed an executive order creat-  
ing the Gravel Island reservation in  
Wisconsin for the protection of native  
birds. The reservation embraces  
Gravel and Spider islands, two small  
unsurveyed islands in Lake Michigan,  
near the entrance to Green Bay. They  
have no agricultural value and are  
still part of the government public  
lands.

Gravel Island has apparently always  
been a favorite feeding place for gulls  
and Caspian tern and forms the basis  
of an interesting gull group in the  
Milwaukee public museum. Spider  
Island is a smaller home for gulls and  
herons.

During the next few weeks for  
Sunday evening themes Rev. W. J.  
Lowrie, pastor of the First Presby-  
terian church will have topics all on  
the general theme of church going:  
January 12, "Why Smith Goes to  
Church"; January 19, "Why Jones  
Don't go to Church"; January 26,  
"Why Mrs. Hope Goes to Church";  
February 2, "Why Mrs. Veneering  
Goes"; February 9, "What is the  
Devil Doing Sundays? Where Does  
He Go to Church?"

The Minneapolis Journal says:  
Thomas Van Lear headed a delega-  
tion of railway machinists which  
called late Friday on Governor A. O.  
Eberhart to ask him not to oppose an  
amendment to the anti-pass law to  
allow railway employees to hold pub-  
lic office without losing their rail-  
road passes. The delegation repre-  
sented district unions of the machin-  
ists. The case was presented to the  
governor, who did not indicate what  
his attitude will be. Mr. Van Lear  
explained that many railway em-  
ployees would like to hold minor of-  
fices where the salary is little or noth-  
ing, but cannot afford to do so be-  
cause they would lose their railway  
transportation.

M. D. Stoner tells a good story on  
Fred Olson, of Deerwood, his super-  
intendent. In order to make better  
time to points along the pole line of  
the Cuyuna Range Power company  
Olson uses a motorcycle and can  
spin from Deerwood to Crosby in a  
few minutes. The other morning  
Olson's corn cob pipe did not draw  
well, and mounting his machine, Ol-  
son placed the pipe in his pocket and  
tuned the motorcycle up to 30 miles  
an hour. By some method of a  
short circuit or spontaneous combustion  
the pipe revived and set fire to  
Olson's long sheepskin coat. Fanned  
by the wind the blazing coat tail  
streamed out like the tail of a com-  
et. Every passerby tried frantically  
to flag the burning Olson, but he  
grimly screwed up more speed and  
thought everybody crazy about the  
motorcycle. At last he reached a  
farmer who obstinately blocked the  
road while he waved his hands and  
yelled "Whoa" to Olson. The super-  
intendent looked back, saw the re-  
mains of the coat tail and felt the  
breath of flames up his neck and with  
the assistance of the farmer the con-  
flagration was checked and Olson  
continued with a coat minus a tail.

Sick and beneficial results are just

**Hunter-Vaars**

A quiet but pretty wedding cere-  
mony took place at the Catholic  
church at Deerwood Thursday morn-  
ing at 9:30. Rev. Father Quillion  
officiating, when Miss Rose Vaars,  
daughter of Mr. and Mrs. Peter  
Vaars of Brainerd, became the bride  
of Mr. Herman Hunter of Mangan-  
ese.

The bride was attired in a beau-  
tiful gown of Alice blue messaline  
and carried a bouquet of white and  
pink carnations. She was attended  
by her sister Miss Gertrude Vaars,  
who wore a gown of blue charmeuse.  
The groom's best man was his brother,  
Raymond Hunter.

The bride is well and favorably  
known in Brainerd and has for the  
past five years been a popular teach-  
er of this county. The groom is em-  
ployed as a driller in Ironton. After  
a sumptuous wedding breakfast at  
the home of the groom's sister Mrs.  
G. Peck, the happy couple left on a  
short wedding trip to the southern  
part of the state after which they  
will make their home in Manganese.

Mrs. Vaars, mother of the bride,  
attended the wedding.

The Dispatch joins their many  
friends in best wishes for their con-  
tinued happiness and prosperity.

**AN INSOLENT WRITER.**

He Found He Couldn't Dictate to a  
Typical John Bull.

That sprouting Scotch peer, the Earl  
of Levon, who rebuked a ship news re-  
porter who approached him by declar-  
ing that "no gentleman ever speaks to  
another without an introduction; it  
simply isn't done," is an old friend of  
James Francis Dwyer, the Australian  
novelist—that is, Dwyer doesn't actu-  
ally know the Earl of Levon, but he  
knows his sweetly British sort.

"I ought to," said Dwyer. "I was  
broke in London and I learned to  
know the true Briton. Once I an-  
swered an advertisement for a literary  
secretary. To make certain that my  
letter would be read I wired the ad-  
vertiser as follows:

"Do not engage a literary secretary  
until you have read my letter of ap-  
plication."

"That letter was a gem. I thought I  
would land the place with it sure. I  
was certain of it when a large, square  
letter directed me to appear at a nam-  
ed address at a given hour. It was a  
four penny bus ride, but I didn't care. My  
fortune was opening out before me. I  
squandered the fourpenny without a  
miserly thought. A pompous butler  
ushered me into a black oak library,  
where the original stuffed model of  
John Bull sat at a table. I sat down  
meekly and waited to be spoken to.

"Blam! He hit the desk with his  
clinch hand.

"You cannot dictate to an English  
man," said this old image.

"No, sir, I said.

"I tell you," he shouted, "you cannot  
dictate to an Englishman!"

"Certainly not, I said.

"But you tried to," he said. "You  
sent me this impertinent telegram. No  
Englishman would have done that. It  
was an American trick.

"I tried to soothe him, for I wanted  
that job. But he got hotter and hotter.  
Finally he told me outright that he had  
hired a young man who once had work  
ed for a lord.

"I have sent for you, said he, and  
you should be grateful to me in order  
to teach you a proper respect for the  
traditions of England and for the Brit-  
ish flag."

"You old fossil," said I. "If I had a  
British flag here I'd tear it in two and  
choke you to death with it!"—Chicago  
News.

**"COOKING A PILL."**

That Is What Opium Smokers Call  
"Hitting the Pipe."

The opium smoker in the act of  
smoking is said to be "cooking a pill."  
Smokers of tobacco in seeing opium  
pipes have been misled into the belief  
that the large bowl of the pipe is filled  
with opium when really the "pill" is  
simply pasted over a tiny opening in

the cover or the bowl. Heating of the  
bowl produces dense fumes, which are  
drawn through the bowl and the stem  
of the pipe into the smoker's mouth.

Neither does one pipe of opium pro-  
duce stupor. A "pill" dazes only even  
an inexperienced smoker as a large  
drink would effect a person unused to  
alcohol. The opium users who have  
been pictured stretched on bunks of  
opium dens in utter stupor have been  
saturated with the drug.

Reclining on a bed, the smoker places  
the layout within easy reach and lights  
the lamp. Peanut oil, burning slowly  
and without evil odors or fumes, is used  
exclusively. The smoker is then ready  
to prepare his "pill."

The yen-hok, or dipper, a long, needle  
shaped instrument, is put into the  
opium receptacle and turned slowly in  
the black and sticky substance until a  
small quantity of opium adheres to the  
point. It is then placed over the flame  
of the lamp, and, turning the dipper,  
the smoker rolls and cooks the "pill"  
until it is ready for the pipe.

The tiny speck is then thrust into the  
opening of the bowl, which, held above  
the lamp, slowly begins to produce  
opium fumes, which are drawn in by  
the smoker through the stem of his  
pipe. The "pill" lasts only from thirty  
to forty seconds, and to enjoy another  
smoke the same preparations have to  
be repeated.—New York Tribune.

**A Pathetic Benefit.**

Perhaps one of the saddest of the  
many benefits which have been cele-  
brated at Drury Lane was that given  
on June 27, 1828, for Grimaldi, the  
greatest clown the stage has known,  
when the heartbroken old man was  
wheeled out to the stage in an arm-  
chair and hopelessly broke down in  
his endeavor to sing his once famous  
ditty, "Riot Cellars." The old man's  
memory had completely forsaken him.  
On that occasion a sum of £1,700 was  
realized, which for many years remain-  
ed a record.—St. James' Gazette.

**The Widow Had Learned Her Lesson.**

This is the story of a newly made  
widow, sitting sobbing convulsively  
all over the shoulder of another wo-  
man who happened to be her dearest  
friend for that particular fortnight.

"There, there, Fanny, don't cry!  
You'll only make yourself sick, and it  
can't do any good," whispers the sym-  
pathetic soul, patting the widow's arm  
affectionately.

Widow (between sobs)—Oh, I know;  
I know, but my poor Howard—I was  
cross to him yesterday! I did not  
dream he would be taken from me. If  
I ever marry again I'll be more  
thoughtful of my husband.—Kansas  
City Star.

## A COMBINATION PLANT DISCUSSED

Booster Club Listens to Proposition of R. M. Dungan of Eveleth to Install Steam

## LIGHTING AND HEATING PLANT

Public Market, Soo Railway and Publicity Argued—Many New Members Accepted

Last night the office of Attorney George H. Gardner was crowded to its greatest capacity by a gathering of the Boosters club and things were discussed without gloves and in the frankest manner possible.

Subjects for debate were railway matters, the entrance of the Soo into Brainerd, public markets, George H. Crosby's project to install a public market in Duluth, the public market at Dubuque, Iowa, R. M. Dungan's proposition to light and heat Brainerd with a steam lighting and heating plant, the Commercial club and other matters of pertinent interest.

Jay Henry Long brought out a big map of Minnesota and with his pointer traced what he thought would be the extensions the Soo would project in northern Minnesota this year. "We have to get the Soo into Brainerd or this town will be practically a standstill," said Mr. Long. "We must have connection with Crosby, Ironton and Cuyuna and the other coming north range towns. Much business will be brought to Brainerd and Brainerd in turn will patronize the range if reciprocal relations are established joining the towns with bands of steel rails."

"Getting this range connection is only a small part of the proposition. The Soo, to all intents and purposes, is planning on a north and south line from International Falls through the richest portion of Minnesota." Mr. Long showed the various small gaps which the Soo could easily bridge over and which would eventually bring the line to Roper, 20 miles north of Emily. "The point then arises," said Mr. Long, "do we want the Soo to continue on through Crosby and miss Brainerd?"

Other speakers called attention to the activity in the city for gasoline car connection with the range and the movement now fostered by the Commercial club to get the Northern Pacific officials committed to this plan for better communication with the range towns, and spoke favorably on the activity of the club in its behalf.

R. M. Dungan of Eveleth, in charge of a large steam lighting, power and heating plant at that town, addressed the club relative to the matter of installing a similar plant in Brainerd. Mr. Dungan said he was glad to meet with the Boosters. Entering the city at this time with any lighting or power plant virtually meant buying a lawsuit. But when these matters were settled he believed his company would be able to enter the field in Brainerd and absorb the present plant and much of its equipment. The heating system in connection with his proposed plant would be run partially on exhaust steam generated and would be at its maximum capacity from 6 to 11 P. M. It would be necessary to have some kind of a day load, but that could be arranged by getting the city pumping.

"Business men of Brainerd appear to favor a heating plant. At Eveleth our company has 30,000 feet of radiation. People in the residence section are clamoring for the extension of the heating system to their part of town. The combination plant has been operating four years and has been a marked success. Steam can be transacted two or three miles and connection can be made with steam or hot water plants. ing to the building its structure and its location and exposure. But nevertheless there is a great saving affected by the use of heat from the station. It eliminates smoke, ashes, soot, cuts down fire insurance rates, fire risks, repairs and janitor service.

"The pipes would be placed seven and one-half or more feet below the surface to get below the frost line." As to the cost of electric current Mr. Dungan said the present figures in the Tolst contract were rather low, but he believed a satisfactory figure could be arrived at with his company whenever negotiations were opened up.

Attorney Broady mentioned that in his home town the condensation was metered and that even if the cost of steam equalled the coal bill, one was ahead on the proposition.

The proposition of Mr. Dungan was referred to the proper committee by President Adair and the club on motion of Rev. Campbell, thanked Mr. Dungan for his address. The club confirmed the committee assignments made by President Adair.

Rev. Campbell brought up the matter of changing the meeting night from Thursday to Friday as on the latter date more traveling men, newspaper men and ministers could attend. Thursday nights the weeklies of the city were printing their editions and many of the ministers of the city were conducting prayer meetings. On motion, the suggested change in the by-laws will be voted on at the next gathering.

New members of the club accepted were Claes Thernin, W. A. M. Johnston, John T. Imgrund, Mayor H. P. Dunn, N. Schlange, J. F. Smart, J. (Continued on page 1)

## WOMEN LOSE LIVES IN BURNING HOME

Special to Dispatch: Pine River, Minn., January 10—Miss K. Evangeline Barentzen, a maiden lady aged fifty-six, and her invalid mother, Mrs. Martha M. Barentzen, aged eighty-three, lost their lives in a fire which destroyed the home of Jas. N. Huffman in Bungo town west of here sometime Tuesday, the house with the entire contents being destroyed. Mr. Huffman left in the early morning about six o'clock to go to Backus and when he returned about 3:30 in the afternoon he found the building burning and fallen in and the women folks missing.

Coroner Miskella was summoned from Cass Lake but when he visited the scene Wednesday afternoon all he could find of the missing women was a few charred pieces of bone and one small piece of flesh. The house was constructed of large Norway pine logs and burned fiercely and the flames were still playing when the coroner came away on Wednesday evening.

The origin of the fire is unknown but it is the general opinion that it must have caught from an overheated stove. Neighbor farmers three miles away saw no smoke about 10:30 but supposed it was a hay stack burning. Miss Barentzen was Mr. Huffman's housekeeper and her invalid mother lived at the place with her. The supposition is that the daughter was out of the building when the fire started and was overcome with the smoke or flames when she rushed in to save her mother and both perished. The only relative known is a Mrs. Voshel at Backus who left the Huffman home with Mr. Huffman that morning to return to Backus, after a few days visit with her sister and mother.

## MOTION TO ADVANCE CASE IS DENIED

State Supreme Court Gives Opinion in Schwartzkopf et al vs the City of Brainerd

## STATUS OF CASE GIVEN BY COURT

Mandamus Proceeding Brought to Compel City to Try President W. & L. Bd. for Malfeasance

The state supreme court has refused the application of Attorney C. A. Russell to advance on the calendar the case of the state of Minnesota on the relation of Hugo Schwartzkopf and R. M. Sheets respondent vs the city council of Brainerd.

The court states: "This is a mandamus proceeding brought to compel the city council of the city of Brainerd to proceed to try the president of the water and light board of that city for malfeasance in office. The defendant, the appellant on this appeal, moved to quash the alternative writ. On November 25th, the district court made an order denying said motion and allowing said defendant to answer within five days on condition that the cause be placed on the December 3rd calendar of said court for trial on the merits."

"On November 29th, the defendant appealed to this court. On December 28th, 29 days later, the plaintiff gave notice that a motion would be made in this court January 6th for an order placing the appeal on the present term calendar and for an immediate hearing thereon. The moving papers represent that an adjourned term of the district court of Crow Wing county will convene January 14th and an early hearing of the appeal is sought to the end that if the order of the district court is affirmed, this court may order the cause placed on the district court calendar and tried on the merits at said adjourned term."

"Should the case be placed on this calendar, some time must be allowed for the proper submission of the case and for a proper determination thereof. If the order is affirmed, defendant will be entitled to answer and some time must be allowed for that purpose and for preparation for trial. Manifestly the time intervening before January 14th, the date of the district court term, is now so short that the trial of the case by the court at that time is not practicable."

"The purpose of advancing the case must accordingly fail, and the application is denied."

## WOODMAN BILL PREPARED

The Insurgent Measure to be Introduced in the Legislature Coming Week in Regular Course

The committee of Modern Woodmen of America in charge of the bill intended to give member of this order an opportunity to form a separate jurisdiction in Minnesota, decided not to ask the legislature to pass the bill under suspension of the rules. It is expected the bill will be introduced early next week. A preliminary poll shows seventy or seventy-five house members in favor of the bill, according to the insurgents, says the Minneapolis Journal.

If the new jurisdiction is formed, a new ritual will be adopted, the head camp copyrighted the present ritual of the Modern Woodmen. The bill provides that when the separate jurisdiction takes over the property owned by the Modern Woodmen of America in Minnesota, compensation must be made to the parent order or to its members who wish to remain with the parent order.

John L. Sundeen of Minneapolis, field manager of the Woodmen assembly, expects to leave at once on a tour of the state in the interest of the measure.

## MAKES PIMPLES GO

Remarkable How Zemo Clears the Face of Pimples and All Other Blemishes

With the finger tips apply a little Zemo to the skin, then see the pimples and blackheads vanish. Zemo is a liquid, not a smear, leaves no trace, just simply sinks in and does the work. You will be astonished to find how quickly eczema, rash, dandruff, itch, liver spots, salt rheum and all other skin diseases are cured.

Zemo is put up by the E. W. Rose Medicine Co., St. Louis, Mo., and is regularly sold by all druggists at \$1 for the large bottle, but you can get a liberal size trial bottle free for only 25 cents. And this trial bottle is guaranteed. You surely will find Zemo a wonder. Get a bottle now from Johnson's Pharmacy.—Adv. mwf

## ROUNDING INTO FORM

Brainerd High School Basketball Team Ready for a Fast Game Friday Night

The high school basketball team is coming into their stride better every day. On Wednesday evening after a two hours practice after school they played a practice game with the Y. M. C. A. The game was fast and both teams extended themselves to score. The score was very close, no official count being kept.

After working about 40 minutes with the Y. M. C. A. such "stars" as Dutch Trent, Happy Alderman, Runt Purdy, Patty Carlson and the Speed boy bush were taken on and found that the B. H. S. could still play ball.

The following are showing up exceptionally strong: Tucker, White, McGinn, Day, Carlson, with Vaungan, Crne and Durnam running a close second.

Staples has notified Coach Callan that they will be on hand to win but our boys are ready to get a score large enough to carry away the prize. Be sure and come to see this game and hear the school orchestra.

## GOOD WORD FOR MINE INSPECTOR

August Swanson, First Appointee, Formerly Worked for Kennedy Mine and in Michigan

## IRON MOUNTAIN IMPROVEMENTS

Aitkin Ladies Visit Crosby—Other News of a Social and Business Nature of Crosby

Crosby, Minn., January 9—On the ninth ballot taken by the county commissioners in session at Brainerd, August Swanson of Barrows, formerly employed at the Kennedy mine at Cuyuna received the appointment of mining inspector for the Cuyuna district. There were twelve applications for the position. Mr. Swanson has had a large experience on the range as well as in the iron country of Michigan and will, no doubt, fill the position in a capable manner.

T. J. St. Germain and B. F. Forrester of Duluth, were in the city the first of the week and stated that the Iron Mountain company have practically completed arrangements for extensive improvements to its property near Crosby. The shaft will be enlarged to three compartments 6 by 14 ft. inside measurement, and will be sunk to a depth of 200 feet. The shaft will be built practically the same as the one at the Cuyuna-Duluth property and will permit of the operation of two skips. A large tubular boiler will be installed as a reserve to be used in case of accident to the present one. Material for the improvements planned has already been contracted for. The company expects to be in a position to ship 20,000 tons next year. It is reported that the Soo line has already completed a survey to the property.

On Thursday of last week Crosby was honored by a visit of nine of Aitkin's fair ladies who drove in sleighs. The party arrived in the morning and were guests at the Spalding for dinner, after which they viewed the town and returned home during the afternoon. In the party were Miss M. Irene Hodgden, Mrs. S. H. Hodgden, Mrs. W. E. Gwathmey, Mrs. Petrabor, Mrs. Krelwitz, Mrs. Warren Potter, Miss Potter, Mrs. C. H. Warner and Miss Adah Wotring.

Oscar Johnson, a homesteader living north of the Mississippi river near Dean lake died here of tuberculosis on Monday night. The body was taken to Deerwood by D. M. LaChance of the Crosby Hardware company and shipped to the former home of Mr. Johnson in Iowa.

## Escaped After Fifteen Years

W. P. Broyles made a successful escape after fifteen years of suffering from kidney and bladder troubles. Foley Kidney Pills released him and will do just the same for others. He says: "They cured a most severe backache with painful bladder irregularities, and they do all you claim for them." Refuse substitutes. H. P. Dunn, druggist.—Adv. mwf

## Banishing the Avalanche

Along the side of an Alpine railroad an ingenious device has been put into use to prevent avalanches from falling upon the track. A wall has been built which intercepts the sliding snow and forces it to precipitate itself in a heap, whereby it clears the roadbed and huris itself into a canal upon the other side.

## PANAMA STAMPS ARE ON SALE

Local Postoffice Announces Arrival of Consignment of Panama Exposition Series of Stamps

## WILL BE SOLD ON REQUEST

Two Cent Denomination Not Received, but Will be Furnished Later, Owing to Limited Supply

The 1915 Panama exposition stamps, commemorative of the world's fair to be held in San Francisco have been issued by the government and the local postoffice received a consignment this morning. The stamps consist of the one, five and ten cent denominations and will be sold only on request. The two cent denomination was not received, the demand for them being so great that the supply was exhausted before the offices that made requisition for the stamps were all supplied, and they will be sent later and the public will be given notice of their arrival through the press of the city.

The series is very similar to those issued at the time of the Pan-American exposition in St. Louis in dimensions. The one cent adhesives are green and bear a picture of Balboa, discoverer of the Pacific ocean. The two cent stamps are red and bear as pictorial subject the Gatun Locks of the canal showing a merchant steamer passing through one lock and a warship through another. The isthmus mountains and palm trees furnish a background. The five cent stamps are blue. They picture the Golden Gate harbor at San Francisco with a sunset as background. A steamer and sailing vessel appear upon the bay. The discovery of San Francisco Bay is the subject matter employed in the dark yellow 10 cent stamps.

## VOTE ON MINE INSPECTOR

Twelve Applicants for Position—August Swanson of Barrows, Wins on 9th Ballot

There were twelve applicants for the position of mining inspector which included August Swanson, of Barrows, the successful applicant; Former County Commissioner G. F. Edquist, of Nokay Lake; Robert L. Clemens, Crosby; County Surveyor F. A. Glass, Brainerd; C. E. Rogers, of Deerwood; Edward B. Congdon, of Crosby; F. S. Benjamin, of Crosby; Joseph Herbst, of Riverton; H. B. Blackwood, of Crosby; T. H. Martin, of Crosby; John A. Hoffbauer, of Brainerd; D. R. Hillis of Crosby. Nine ballot were taken.

The first ballot was Swanson 1, Glass 2, Clemens 1, Martin 1. The second ballot: Swanson 1, Edquist 1, Glass 1, Clemens 1, Martin 1. On the third: Glass 1, Clemens 1, Martin 1, blank 1, Rogers 1. The Life of a Drop of Water.  
A German professor named Meinardus has amused himself with calculating how long a drop of water stays in the ocean before it is evaporated and how soon it returns to the sea. Calculating—he does not say how—the total evaporation from the surface of the ocean and estimating the total volume of water in the oceans, a drop of water entering the ocean will stay there 3,400 years provided it awaits its turn to be evaporated. However, the professor admits that the surface water stands a good chance of getting ahead of its turn. The average stay out of the ocean is only twelve days before it has fallen in rain and run back again to the sea.—Boston Globe.

## WATER WORKS AND SEWER PLANNED

Believed the Matter Will be Taken up at the Spring Election in Deerwood

### SOCIAL NEWS IN DEERWOOD

Lake Superior Iron Syndicate Incorporated, Will Explore Cuyuna Range Lands

Deerwood, Minn., January 10.—It is highly probable that the question of having sewers and water works in Deerwood will be placed squarely before the people at the spring election. Many favor these improvements and now that Cuyuna has waterworks and Crosby has both waterworks and sewers, many think the time is ripe to commence these improvements in Deerwood.

A surprise party was given Miss Marcella Keating on Monday evening. Those present were the Misses Margaret Torgerson, Agnes I. Lamb, Esther Theorin, Maude and Lillian Hage and Messrs. Julius Hage, Hugo Barthelme, Gust Oberg, E. A. Arnold and William Seafeld. Cards were played and all spent an enjoyable evening.

Although the principal place of business of the Lake Superior Iron Syndicate, Incorporated is in Duluth, the main activity of the corporation will be exemplified in the exploration and development of the Cuyuna range. The company hopes to soon take up options and commence the development of mineral lands. In the company are H. H. Garceau, assistant cashier of the First National bank of Crosby, Attorney A. W. Uhl of Crosby, and Julius Hage, assistant cashier of the First National bank of Deerwood. The company is incorporated for \$100,000. With officers of the company residing at Crosby and Deerwood an observant eye will be kept on the developments of the range and full advantage will be taken of any opportunities presented for good investments.

The jeweler, Mr. Wright, has removed to Bertha, Minn.

The council had no meeting on Tuesday because no quorum was present.

The engineering department of the Cuyuna Northern railway has gone to St. Paul, having finished for a time their work at and near Deerwood.

B. Magoffin, Jr., lost a valuable dog when Dixie died. The animal was highly prized by Mr. Magoffin and he tried many remedies to save the dog's life. He will have an examination made of the body to definitely ascertain what was the matter with the animal.

William Elmore caught a 19 pound pickerel which had just grabbed a half pound bass, the fish being in its jaws. Another one speared by Mr. Elmore had a crapple in its mouth. The weights of other pickerel speared ranged from 12 pounds up.

Oscar and Arthur Carlson are drilling in the vicinity of Manganese.

Prof. Theodor Reimstad, the noted tenor soloist of Minneapolis, will be heard in concert at Deerwood on Wednesday evening, January 15th, at the Scandinavian Lutheran church. He has sung in Brainerd and throughout the west and delighted many audiences by his singing.

W. R. Fox, 195 W. Washington St., Noblesville, Ind., says: "After suffering many months with kidney trouble, after trying other remedies and prescriptions, I purchased a box of Foley Kidney Pills which not only did me more good than any other remedies I ever used, but have positively set my kidneys right. Other members of my family have used them with similar results." Take at the first sign of kidney trouble. H. P. Dunn, druggist.—Adv. mwf

### "THERE AIN'T NO WINTER"

Minnesota Climate is so Invigorating that the Usual Exodus to Southern Climes Will Cease

The Hibbing Tribune says: "Mosquitoes are biting the people at Little Falls, flies annoy Brainerd and trees in the southern part of the state are budding. What's the use of going away from Minnesota to spend the winter? In the greater part of the state 'there ain't no winter'—yet."

### As It Looked to Him.

The philanthropic lady was visiting a lover east side school. To test the brightness of some of the poorer pupils she asked them:

"Children, what is the greatest of all the virtues?"

No one answered. "Think a little," she said. "What is it I am doing when I give up time and pleasure to come and talk with you for your good?"

A grimy fist went up. "Well, what am I doing, little boy?" "Buttin' in!"—Denver Republican.

### Cut the High Cost of Living

W. H. Chapman, Winnebago, Neb., tells how he did it. "My two children had a very bad cough and the doctor's medicines did them no good. I got a bottle of Foley's Honey and Tar Compound, and before it was all used the cures were free and cured of their cough. I saved a doctor's bill for one 25c bottle of Foley's Honey and Tar Compound." No opiates. H. P. Dunn, druggist.—Adv. mwf

### BOUCK IS ON THE JOB

Claims Lindbergh's Friends Tried to Defeat Him With a Democrat—On Steering Committee

The St. Cloud Journal-Press says: "Hon. C. W. Bouck of Royalton, is chairman of the Sixth district steering committee, and won a personal victory in making Crawford Sheldon of Little Falls, enrolling clerk of the house, one of the fattest plums to be given out by the house. Bouck charges that Congressman Lindbergh's friends tried to defeat him for a democrat and when the re-apportionment of the congressional district comes up if there is any way to lose Lindbergh, Charley will find the way, as he is a hard fighter, but always out in the open."

### PAPE'S DIAPEPSIN ENDS INDIGESTION

Time it! No sick, Sour, Gassy Stomach, Heartburn or Dyspepsia in Five Minutes

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diapepsin is noted for its speed in giving relief; it's harmless; it's certain unfailing action in regulating sick, sour, gassy stomachs. It's millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat anything which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eruptions of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. It's promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.—Adv.

## \$40,000 HOTEL FOR IRONTON

Planned by Peter Spina—To be of Brick, Three Stories High and Fireproof

### SEWER AND WATER IN TOWN

Payrolls of Mines \$20,000—Prosperity is Evident on all Sides in Ironton

Ironton, Minn., January 10.—Peter Spina plans the erection of a three story brick hotel costing over \$40,000, to be of fire proof construction and modern design and located on the corner of Fourth street and Ironton avenue. The dimensions are to be 75 by 100 feet. A good hotel of metropolitan style will do much to boom Ironton.

Another improvement projected for the spring season is the reported building of water works and sewers. The talk about Ironton running short on water because the mines were pumping so much will not stop the growth of Ironton. Sources for a plentiful supply for their waterworks can easily be located. The payrolls at the mines now run up to \$20,000 a month and the bursement of this money has done much to create prosperity in the town.

The Crosby-Ironton basket ball team plays the Brainerd Y. M. C. A. team at the roller skating rink Friday evening.

The Cuyuna-Duluth mine is down 90 feet.

The Pennington mine has over a hundred men on its payroll. The pit mine is 80 rods west of Ironton. The Ellington Brothers are remodeling their store and will drop the drygoods and later handle only groceries and meats.

W. G. Anderson and family have removed from Deerwood to Ironton.

School children from Crosby Beach the Cuyuna-Mills Lacs mine and other points attend the Ironton school.

During the long, dreary winter months mothers become tired, worn out, can't eat, sleep or work. Hollister's Rocky Mountain Tea is the greatest blessing for mothers. Makes them happy, healthy and strong. H. P. Dunn.—Adv.

T. Sanborn, Christ Schwabe, Geo. Vogel, Frank Grant, George Weaver, A. K. Lukens, W. E. Corkery, Ernest Hackl, V. N. Roderick, C. G. Row, A. Manlum, F. W. Sleeper, V. L. Hitch, J. Lloyd Jones, R. D. King, M. E. Hitch, A. Everett, I. J. Zigan, John A. McColl, H. Squires, Dr. Karl H. Horn and Supt. W. C. Cobb.

A public market in Brainerd was championed by Attorney Gardner and he cited the work George H. Crosby had done to start a market in Duluth, Mr. Crosby offering \$2,500 to commence the project. Reference was made to the public market in Dubuque, Iowa, an institution which has been in successful operation for 50 years. A marketmaster has charge of the stands which pay a small rental. All kinds of produce is sold by the farmers and truck gardeners and Dubuque people would as soon sell their homes as lose their beloved market. It is one of the institutions of the city, modeled in part by the early settlers after the market in Cincinnati, Ohio.

Jay Henry Long took up the storm which the Greater Duluth club had started in Duluth and in which P. E. Dowling was the central figure in rapping the railroads and the commercial club. There are three clubs in Duluth, the Commercial club, the Greater Duluth club and the Rotary club.

"Referring to Brainerd," said Mr. Long, no one wished to break up the Brainerd Commercial club. All the members of the Boosters club desired to do was to boost the Commercial club as well as any other agency in the city which believed in the advancement of Brainerd. We were all working for Brainerd, whether it was a Commercial club, labor assembly, the unions, the churches or any other public agency. If we spoke a good word occasionally for the Soo line, it should not be taken as a knock against the Northern Pacific railway."

The long indoor life of winter makes the blood weak, the system easily catches cold and disease. Hollister's Rocky Mountain Tea is the greatest winter remedy; prevents colds and disease; keeps you well all winter. 35 cents. Tea or tablets. H. P. Dunn.—Adv.

## UGH! HOW CHILDREN HATE CASTOR OIL

To Clean the Little One's Stomach, Liver and Waste-Clogged Bowels Give Gentle "Syrup of Figs"

Look back at your childhood days. Remember the physic that mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. The day of harsh physic is over. We don't force the liver and 30 feet of bowels now; we coax them. We have no dreaded after effects. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their little stomachs and tender bowels are injured by them.

If your child is fretful, peevish, half sick, stomach sour, breath feverish and its little system full of cold, has diarrhoea, sore throat, stomach-ache; doesn't eat or rest well—remember—look at the tongue, if coated, give a teaspoonful of Syrup of Figs, then don't worry, because you surely will have a well, smiling child in a few hours.

Syrup of Figs being composed entirely of luscious figs, senna and aromatics simply cannot be harmful. It sweetens the stomach, makes the liver active and thoroughly cleanses the little one's waste-clogged bowels. In a few hours all sour bile, undigested fermenting food and constipated waste matter gently moves on and out of the system without griping or nausea.

Directions for children of all ages, also for grown-ups, plainly printed on the package.

By all means get the genuine. Ask your druggist for the full name "Syrup of Figs and Elixir of Senna" prepared by the California Fig Syrup Co. Accept nothing else.

# You Can't Make Your Farm Pay

If You Eat the Doughnut and Offer the Hole as Collateral

THERE'S a man out in Illinois who owns a bank and lends money to farmers. He wanted to get at both sides of the question of borrowing and lending, so he got busy on a half-section of land and farmed it on the principle of a square deal to the soil. What he found out was this: It's bad business, both for the farmer and the banker, for the farmer to eat the doughnut and offer the hole as collateral on a loan.

It's one of those simple solutions of a big financial problem that engaged the attention of the President of the United States and a group of Governors, meeting at the White House to discuss this great problem only a few weeks ago. Presidents of Insurance Companies, bankers, men and institutions with money to invest, farmers who want to borrow money—all these people will agree with us that Mr. Harris has thrown the searchlight of common sense on a subject that seemed as thick as a London fog.

There is a host of good things in this week's issue of THE COUNTRY GENTLEMAN, but
